[The Impact of Artificial Intelligence Technology on Public School Curriculums of Mathematics-Sciences](#) Noel Smythe, 2025-05-23 In a concerted effort to contribute to the much needed improvement betterment of public education especially in mathematics and the sciences I find myself on a pilgrimage to effect positive change The oft reported public school casualty that seems to be so ubiquitous can probably be gainsaid by an amalgam of strategic applications in artificial intelligence In order to elucidate some of the ideas I propose I have tried to substantiate the same As a product of the public school system myself I submit that my academic pedigree is not an exception but rather is and can be the rule While I do not purport this to be the panacea the be all and the end all it is along the continuum of technological advancement in which our postmodern space has manacled us from this point onward Concordantly I must admit that had it not been for the kind affection and guidance of my mother Mrs Lillian Smythe my mentor Reverend Frederick Douglas Smith and some of the most astute teachers and professors that have shaped my personality and ethics I would not have been able to overcome the seemingly insurmountable odds that I have intermittently encountered To all response I say kudos

systems     Situating Equity at the Center of Continuous Improvement in Education Erin Anderson, Angel Yee-lam Li , Brandi Hinnant-Crawford, 2026-02-16 This Research Topic is about equity centered improvement in education Equity means every child gets what they need to actualize their full potential in their academic and social life as defined by the National Equity Project In theory to center equity in continuous improvement including improvement science efforts educators can identify a problem of practice with inequity at the core of the problem and develop and test a theory of improvement to redress that inequity and arrive at equitable outcomes Centering equity can also mean ensuring the continuous improvement process itself is equitable In practice it is often unclear how equity centered improvement is implemented and if making the improvement process equitable translates into equitable outcomes If we conceptualize equity centered improvement as a lever in school reform what is the aim that educators should work towards How might this lever be operationalized in research and practice What might be the theory that guides the emerging field of continuous improvement in education The goal of this Research Topic is to arrive at a shared definition of equity centered improvement and create boundary objects that connect researchers and practitioners in their pursuit of equity through the study and use of continuous improvement methodology The literature in continuous improvement in education has focused on mechanism and impact And when connection to equity is made it is often about leveraging improvement principles processes and tools to achieve equitable outcomes Exploration of infusing equity into the process of improving is in infantile stage Although some schools of thought argue that continuous improvement is intrinsically equity centered others raise doubts and concerns about this assumption and warn that an equity focus has to be made explicit in improvement work to avoid further perpetuation of inequity This Research Topic seeks to contribute to this debate We welcome submissions from across the globe that align with our goal and examine the why what and or how of equity centered improvement The methodology used can be conceptual qualitative quantitative or mixed We particularly encourage submissions that focus on the following topics Equitable development and use of measurement and data infrastructure roles processes tools in support of continuous improvement Social conditions that foster the progression initiation implementation and institutionalization of equity centered improvement and ways to cultivate such conditions Hindering forces individual organizational societal political and cultural that influence the progression of equity centered improvement and ways to counter such resistance and Conceptualization and operationalization of equity centered improvement networks     **Industrial Education, Trade Tests, Unit Trade Schools, General Industrial Schools, Shopwork on Productive Basis, Teacher Training, State Supervision, Training and Upgrading of Women Workers ...** National Society for Vocational Education, 1919     *When Reform Meets Reality* Jonathan A.
