**Compare:** similarities between the two subtopics **Contrast:** differences between them

**Plan A (point by point):** My hometown and my college town have several things in common. First, both are small rural communities. For example, my hometown, **Gridlock**, has a population of only about 10,000 people. Similarly, my college town, **Subnormal**, consists of about 11,000 local residents. This population swells to 15,000 people when the college students are attending classes. A second way in which these two towns are similar is that they are both located in rural areas. **Gridlock** is surrounded by many acres of farmland which is devoted mainly to growing corn and soybeans. In the same way, **Subnormal** lies in the center of farmland which is used to raise hogs and cattle . . . .

**Plan B (block):** My hometown and my college town have several things in common. First, my hometown, **Gridlock**, is a small town. It has a population of only about 10,000 people. Located in a rural area, **Gridlock** is surrounded by many acres of farmland which are devoted mainly to growing corn and soybeans. **Gridlock** also contains a college campus, Neutron College, which is famous for its Agricultural Economics program as well as for its annual Corn-Watching Festival. As for my college town, **Subnormal**, it too is small, having a population of about 11,000 local residents, which swells to 15,000 people when students from the nearby college are attending classes. Like **Gridlock**, **Subnormal** lies in the center of farmland which is used to raise hogs and cattle. Finally, **Subnormal** is similar to **Gridlock** in that it also boasts a beautiful college campus, called Quark College. This college is well known for its Agricultural Engineering department and also for its yearly Hog-Calling Contest.
