

Chapter 17: Reconstruction: 1863–1877

Chapter Review

I. AMERICAN COMMUNITIES *Hale County, Alabama: From Slavery to Freedom in a Black Belt Community*

Violent political encounters were common between black people and white people in southern communities after the Civil War. Communities throughout the South struggled over the meaning of freedom in ways that reflected their particular circumstances. More than anything, freed people wanted more autonomy. Overseers grudgingly allowed them to work the land in familial groups and letting them choose their own supervisors. The result was a shift from gang labor to the sharecropping system where African American families worked the land in exchange for a small share of the crop. The majority of African Americans had to settle for sharecropping or tenant farming. Local African Americans began to organize politically and in 1866, Congress passed the Civil Rights Act and sent the Fourteenth Amendment to the states for ratification. Both measures promised full citizenship rights to the former slaves. These economic and political gains by African Americans soon drew white protest and violence. After the murder of a black voting registrar in Greensboro, freedmen enlisted in the Union League and scared angry whites joined the Ku Klux Klan as white resistance to Reconstruction spread. Although the passage of the Ku Klux Klan Act of 1871 led to a federal crackdown on the Klan, the destruction of slavery made it apparent that whites and African Americans would have to renegotiate their respective roles. In the end, Reconstruction was only partly successful.

II. THE POLITICS OF RECONSTRUCTION

Although Abraham Lincoln had characterized the Civil War as a struggle to preserve the Union, by 1863 it became a war for African American freedom and the end of slavery. The Civil War settled the issue of slavery permanently and resolved the Constitutional crisis provoked by the secession of the Confederacy. The old notion of the United States as a voluntary union of sovereign states was replaced by the new reality of a single nation where the federal government took precedence over the individual states.

a. The Defeated South

The South paid a high price for its secession and eventual defeat. Much of the best agricultural land lay in waste, many towns and cities laid in ruins, and by 1865, the South's most precious commodities, cotton and slaves, no longer were measures of wealth. It would take the South's economy a generation to overcome the severe blows dealt by the war. In 1860, the South held approximately 25 percent of the nation's wealth. In 1870, that number had shrunk to only 12 percent. Emancipation proved the most loathed effect of the war and white people responded, more than ever, by regarding African Americans as inferior to themselves. Emancipation forced white Southerners to redefine their world. The fear of African American political power and social equality

Highland Reconstruction Hugh Fraser Campbell, 1920 George Thomas Christopher J. Einolf, 2012-11-09 One of the North's greatest generals the Rock of Chickamauga Most Southerners in the U S Army resigned their commissions to join the Confederacy in 1861 But at least one son of a distinguished slaveholding Virginia family remained loyal to the Union George H Thomas fought for the North and secured key victories at Chickamauga and Nashville Thomas's wartime experiences transformed him from a slaveholder to a defender of civil rights Remembered as the Rock of Chickamauga Thomas became one of the most prominent Union generals and was even considered for overall command of the Union Army in Virginia Yet he has been eclipsed by such names as Grant Sherman and Sheridan Offering vivid accounts of combat Einolf depicts the fighting from Thomas's perspective to allow a unique look at the real experience of decision making on the battlefield He examines the general's recurring confrontations with the Union high command to make a strong case for Thomas's integrity and competence even as he exposes Thomas's shortcomings and poor decisions The result is a more balanced nuanced picture than has previously been available Probing Thomas's personal character Einolf reveals how a son of the South could oppose the views of friends and family George Thomas Virginian for the Union offers a fresh appraisal of an important career and lends new insight into the inner conflicts of the Civil War

Exchange and Markets in Early Economic Development John D. Conroy, 2023-05-12 The idea of an informal economy emerged from and is a critique of the ideology of economic development It originated from Keith Hart's recognition of informal economic activity in 1960s Ghana In the context of four colonialisms German British Australian and Dutch this book recounts Hart's effort in 1972 to introduce the informal sector into development planning in Papua New Guinea This was problematic because the market was scarcely institutionalized and traditional modes of exchange persisted stubbornly Rather than conforming with post colonial economic ideology the subjected people pushed back against imposed bureaucracy to practice informal and hybrid modes of economic activity
