Summary and Rationale <i>(Fill in during Topic 2)</i>	Objectives will be introduced and importance of a budget will be discussed. Budget-making for bridge construction will begin. Students will make a sample budget using an Excel template that they will also use for the main project. Students can decide how money should be spent and where while seeing the benefits and	Students will find out their 4-person groups and work together to plan their project. They will select an architect, accountant, and construction crew. They have the choice of each being a group effort or assigning one job per team member. Students will use the paper pegboard template to construct their bridge using specific measurements.	Student groups will finalize their designs and measurements, as well as purchase materials. Materials available for purchase are foam boards, toothpicks, marshmallows, and glue. All transactions will be recorded. Other materials each group will receive include pre-printed checks, excel budget template (with formulas), weights to test bridge	Students will begin construction on their bridges with purchased materials. Construction crew will communicate with architect if there are any revisions or redesigns that need to take place. Groups will also perform weight tests. Architect will consult with accountant regarding the financial strain any redesigns will cause. All transactions will	Groups will complete construction. Any leftover materials can be sold to other groups or back to the bridge materials store. All transactions will be recorded. Upon completion, students will write a reflection of what they learned and what they would do differently on this project.
