

# Paying Your Income Taxes Note Taking Guide

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Class: \_\_\_\_\_

Now Read and take notes on the concepts and facts that suggest and illustrate the goal:

**Goal 1: Understand the different types of income tax returns.**

Individuals are required to file an income tax return if they have income that is not subject to withholding. This includes income from interest, dividends, capital gains, and other sources.

**Goal 2: Understand the different types of income tax deductions.**

Individuals can deduct certain expenses from their taxable income. These deductions can be either above-the-line or below-the-line deductions.

**Goal 3: Understand the different types of income tax credits.**

Individuals can claim certain credits to reduce their tax liability. These credits can be either refundable or non-refundable.

When you file your income tax return, you must report all of your income and deductions. You must also calculate your tax liability and pay the amount due. If you have a refund, you will receive it when you file.

Individuals who are self-employed must file a separate tax return. This return is used to report income from self-employment and to calculate self-employment tax.

Individuals who are married and filing jointly must file a joint tax return. This return is used to report income and deductions for both spouses and to calculate their joint tax liability.

Individuals who are married and filing separately must file separate tax returns. This return is used to report income and deductions for each spouse and to calculate their separate tax liabilities.
