

To interpret the Fishing/Hunting Time Mode screen

Use [D] to enter the Fishing/Hunting Time Mode. When you do, the display automatically cycles through the fishing/hunting times for the current date (as kept in the Timekeeping Mode), starting from the upper transit time.

- The time numbers indicate the following: -1 upper transit time, -2 lower transit time, -3 lower transit time, -4 east transit time.
- Fishing/hunting times are rounded off to the nearest five minutes.
- If any fishing/hunting time falls outside of the 24-hour period that constitutes the current date, -1 is displayed in place of the time.
- The level indicator shows the relative favorability of a fishing/hunting time (calculated in accordance with Moon transit and phase) as shown in the table below.

Moon Phase	Moon Transit	Upper (Hour Angle = 0) Lower (Hour Angle = 180)	West (Hour Angle = 90) East (Hour Angle = 270)	Other
New Moon	☾	☾	☾	☾
First Quarter	☽	☽	☽	☽
Other	☾	☽	☽	☾

- These indicators actually appear during Moon ages 12.0 to 12.7 (Full Moon and phase immediately preceding it) and 26.0 to 26.7 (New Moon and phase immediately preceding it).
- With Module 2805, the level indicator is [D] .

12:00-12:00 (PM)

- The fishing/hunting time graph indicates favorable periods using segments, each of which represents 30 minutes.
- The upper transit (and the lower transit) periods extend from the point one hour prior to the transit up to the point one hour after the transit. The east (and west) transit periods extend from the point 30 minutes prior to the transit up to the point 30 minutes after the transit.
- The fishing/hunting times and graph are refreshed at midnight each day.
- If you suspect that a fishing/hunting time is not correct for some reason, check the Timekeeping Mode data (current time, date, and Home Site settings), and make changes as required.

To view fishing/hunting times and Moon data for a particular date

- In the Fishing/Hunting Time Mode, use [D] (+) and [D] (-) to display the date without fishing/hunting times, Moon phase, and Moon age you want to view.
- Displaying a different date causes an animated pattern to play in the graphic area, indicating that the watch is performing internal calculations. This process can continue for as long as 15 seconds. Wait until the animated pattern stops before performing any other button operation.
- You can select any date from 2000 to 2039.

Fishing/Hunting Time Alarm

While the fishing/hunting time alarm is turned on, the watch performs a beeper or vibrator alert operation for about five seconds whenever a favorable fishing/hunting period is approached.

- The fishing/hunting alert operation is performed the first time the watch minutes reach 00 or 30 after a favorable fishing/hunting period is entered.
- To stop an alert operation, press any button.
- For full details about the alert operation, see "Selecting the Alert Type".
- Note that the fishing/hunting time alarm is disabled when any one of the following conditions exists:
 - While setting the current time or Home Site data
 - While the watch is performing internal calculations (indicated by the animated pattern playing in the graphic area)
 - While the watch is in the process of changing fishing/hunting time data at midnight each day

To turn the Fishing/Hunting Time Alarm on and off

- Use [D] to enter the Timekeeping Mode.
- Hold down [D] for about two seconds to toggle the fishing/hunting alarm on (off displayed) and off (off not displayed).
- With Module 2805, the indicator is [D] .
- The [D] indicator flashes while a fishing/hunting time alert operation is in progress.
- The [D] indicator is displayed in all modes while the alarm is turned on.

Selecting the Alert Type

You can select either beeper or vibrator as the alert for the fishing/hunting time alarm, daily alarm, weekly alarm, and Hourly Time Signal.

- Nearly very magnetic force can cause the watch's vibration alert to become weak or even fail to operate entirely.

To switch between vibration alert and beeper alert

- Use [D] to enter the Timekeeping Mode.
- Hold down [D] for about two seconds to toggle between vibration alert (VIB displayed) and beeper alert (VIB not displayed).
- The watch performs the newly selected alert operation whenever the alert operation is performed to switch between vibration alert and beeper alert.
- The vibration alert indicator (VIB) is displayed in all modes.

Sunrise/Sunset Mode

You can use the Sunrise/Sunset Mode to look up the sunrise and sunset times, as well as the Moon phase and Moon age at the Home Site on a particular date.

To view the sunrise/sunset time for a particular date

- Use [D] to enter the Sunrise/Sunset Mode.
- The sunrise and sunset times that appear first when you enter the Sunrise/Sunset Mode is the data for the Home Site and the date currently specified in the Timekeeping Mode.
- Use [D] (+) and [D] (-) to scroll through the dates.
- Displaying a different date causes an animated pattern to play in the graphic area, indicating that the watch is performing internal calculations. This process can continue for as long as 15 seconds. Wait until the animated pattern stops before performing any other button operation.
- See "Moon Phase Indicator" for information about the Moon phase indicator.
- You can select any date from 2000 to 2039.

Note

- The daylight graph indicates daytime and nighttime in accordance with the sunrise and sunset times calculated by the watch.
- If you suspect that a sunrise/sunset time is not correct or if the daylight graph does not appear for some reason, check the Timekeeping Mode data (current time, date, and Home Site settings), and make changes as required. If the daylight graph does not appear, it could indicate a problem with the GMT differential or longitude setting.
- The sunrise and sunset times displayed by this watch are times at sea level. Sunrise and sunset times are different at altitudes other than sea level.
- Sunrise and sunset times, and the contents of the daylight graph refresh each day at midnight.
- Sunrise and sunset times are rounded off to the nearest five minutes.

- Sunrise and sunset times, and the contents of the daylight graph refresh each day at midnight.
- Sunrise and sunset times are rounded off to the nearest five minutes.

Date	Sunrise Time
12.5	7:25
12.6	7:25
12.7	7:30
12.8	7:25
12.9	7:25

- Naturally, actual sunrise and sunset times change very little from day to day. Sometimes, however, the watch may show a change of as much as five minutes from one day to the next. Note that this is because the watch uses the sunrise and sunset times, and then rounds the result to the nearest five minutes. It does not indicate a malfunction of the watch.
- Sunrise and sunset time calculations are accurate within about six minutes. At north or south latitudes greater than 30 degrees, however, accuracy is within about 10 minutes.

Time Memo

The Time Memo feature of your watch lets you create up to 60 time memos, each of which includes a memo number, as well as the time, date, Moon phase indicator, and the fishing/hunting level indicator at the point when the time memo is recorded. You can create time memos to keep track of how many fish you catch or how much game you bag, as well as the date, time, and Moon phase.

- Time memos are automatically sorted chronologically on their date and time fields. You can recall time memos by scrolling through them on the display.
- You can create a time memo while in any mode. However, you cannot create a time memo while a setting screen is on the display.
- Use the Recall Mode to recall and delete time memos.
- Each memo also shows the month and day only.

To create a time memo

- In any mode, hold down [D] for about two seconds until the memo number and memo time flash on the display.
- When you initially press [D] , the memo number and memo time appear on the display. Press [D] (depressed) until they start flashing. Note that no time memo is created if you release [D] while the memo number and memo time are not flashing.
- The memo number and memo time flash for about two seconds, and then the display changes to the screen that was displayed before you pressed [D] .
- Note that you cannot create a time memo if the current time is midnight or while the watch is performing a calculation operation.

- Creating a time memo while memory is full deletes the oldest time memo and stores the new one.
- Memo numbers restart from 001 with each new day. Because of this, you can use memo numbers to count how many fish or how much game you bag each day.
- Memos are numbered starting from 001. If you record more than 99 memos, the 100th memo is numbered 000, and subsequent memo numbering continues in 000 thereafter.
- Note that the memo number count is reset to 001 only when the Timekeeping Mode reaches midnight as a function of normal Timekeeping. The count will not be reset if you scroll past midnight while changing the Timekeeping Mode current time setting.

Managing Time Memos

- Use the Recall Mode to recall and delete time memos. Use [D] to enter the Recall Mode.
- Entering the Recall Mode initially displays the last time memo you created.
- Performing the time memo delete operation deletes all time memos currently in memory. Note that you cannot delete time memos individually.
- Erasing the watch's battery-replacement will cause all time memos currently in memory to be deleted. Make sure you always keep separate copies of important data.

Casio Sport Sea Pathfinder Watch Manual

IM Harris

Casio Sport Sea Pathfinder Watch Manual:

Popular Mechanics, 2000-05 Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home improvement tips, gadgets and digital technology information on the newest cars or the latest breakthroughs in science, PM is the ultimate guide to our high-tech lifestyle. Backpacker, 2007-09 Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine and the only magazine whose editors personally test the hiking trails, camping gear and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor industry awards are measured.

CASIO A158WA Unisex Watch User Guide 2026 Kelvin Hart, 2026-01-15 ABOUT THE BOOK The CASIO A158WA Unisex Watch User Guide 2026 Edition is the definitive manual for one of Casio's most iconic digital timepieces. This comprehensive guide empowers you to get the most out of your classic watch, blending timeless retro design with everyday functionality. Inside this user guide, you'll find clear, step-by-step instructions on how to operate and maintain your Casio A158WA digital watch, from the basics of setting the time and date to using advanced features like the alarm and stopwatch. Ideal for both first-time owners and longtime fans, the guide breaks down every function in accessible language, supported by helpful diagrams. The watch itself is renowned for its durable unisex design, featuring a stainless steel adjustable band and a square digital display that blends simplicity with practicality. Its essential functions—digital timekeeping with calendar, daily alarm, hourly signal, 1/100 second stopwatch, and LED backlight—are all explained in detail. The guide also covers water resistance, care, battery information, and maintenance tips to ensure long-lasting performance. Key themes covered in the guide include: Overview of watch features and button operations; Setting time, date, and formats (12H/24H); Using the daily alarm and hourly time signal; Operating the stopwatch for everyday timing needs; Understanding water resistance and routine care; Troubleshooting common issues; Safety and maintenance advice to maximize lifespan. Compact yet thorough, this 2026 edition user guide reflects Casio's commitment to simplicity and reliability, providing everything you need to enjoy your A158WA watch with confidence.
