

Intervention Guide

Whole Group Strategies

Classroom Setup

- Desks should be arranged with enough walking space between them
- Keep in mind classroom routines: if students collaborate often, consider groups or pods
- Consider purpose: are students usually in their seats for instruction, if yes make sure all students can see and students who need extra support are placed appropriately
- Keep busy areas open and clear
- Designate wall space for visuals and student work later in the year (these are more impactful than decor!)
- Classroom rules are usually more effective when students get to help make them: leave room on the wall to display this for the rest of the year
- If you will not spend much time at your desk try moving it to the back of the room out of the way
- Soft lighting can create a more peaceful atmosphere for learning

Transitions

- Set clear routines
- Visual schedules are most effective
- Establish a transition signal (bell, music, verbal phrase)
 - Display a timer during work/instruction times
- Immediately correct off-task behaviors during transition and provide positive descriptive feedback
