

- Do these continents overlap?
- Which continent overlaps with Antarctica? (South America)

8. **Match** each of your maps of Pangaea.

- How well do the continents fit together?

They fit really well, but I don't think they fit as well as Pangaea because they don't have the gaps on the map.

- How well do they fit?

Yes, they fit together because all of the continents fit really well and they fit together to make most of the land to make them together.

- How close are the continents to each other? (How close are they to each other? How close are they to each other?)

Yes, they would have been the the closest of the closest to the map. It together. It is really close and the continents would have been really close to each other.

9. **Compare** your maps of Pangaea to your classmates and teacher. (What do other maps look like and how are they different?)

web engineering mechanics dynamics provides a solid foundation of mechanics principles and helps students develop their problem solving skills with an extensive variety of engaging problems related to engineering design more than 50 of the homework problems are new and there are also a number of new sample problems

10 6 calculating moments of inertia physics libretxts - Dec 07 2022

web sep 12 2022 moment of inertia we defined the moment of inertia I of an object to be $I = \sum m_i r_i^2$ for all the point masses that make up the object because r is the distance to the axis of rotation from each piece of mass that makes up the object the moment of inertia for any object depends on the chosen axis
