Building Science Louis Julius Wilhelm Grussendorff, Jacobus Christiaan Du Pisanie, 1987 *Trends in Structural Mechanics* J. Roorda, N.K. Srivastava, 1997-06-30 The desire to understand the mechanics of elastic and plastic solids new materials and the stability reliability and dynamic behaviour of structures and their components under extreme environmental conditions has dominated research in structural engineering for many decades Advances in these areas have revolutionized design methods codes of practice and the teaching of structural engineers In this volume an international body of leading authorities presents some forty papers on current research directions in the specific areas of solid mechanics structural computation modern materials and their application buckling and instability design of structural systems and components reliability seismic analysis and engineering education They were presented at a symposium held July 10 12 1994 at the University of Waterloo Canada to honour Professor Archibald Norbert Sherbourne who recently retired from a long and active career of teaching research and academic administration at this University The themes of the work contained within this volume reflect Professor Sherbourne s own research interests and will be of interest to both academics and practicing structural engineers English Mechanic and Mirror of Science and Art, 1877 **The African Book Publishing Record**, 2000 *Database and Expert Systems Applications* A Min Tjoa, Isidro Ramos, 2012-12-06 The Database and Expert Systems Application DEXA conferences are mainly oriented to establish a state of the art forum on Database and Expert System applications But Practice without Theory has no sense as Leonardo said five centuries ago In this Conference we try a compromise between these two complementary aspects A total of 5 sessions are application oriented ranging from classical applications to more unusual ones in Software Engineering Recent research aspects in Databases such as activity deductivity and or Object Orientation are also present in DEXA 92 as well as the implication of the new data models such as OO Model Deductive Model etc included in the Modelling sessions Other areas of interest such as Hyper Text and Multimedia

application together with the classical field of Information Retrieval are also considered Finally Implementation Aspects are reflected in very concrete fields A total of of nearly 200 papers submitted from all over the world were sent to DEXA 92 Only 90 could be accepted A Poster session has also been established DEXA 90 was held in Vienna Austria DEXA 91 in Berlin Germany and DEXA 92 will take place in Valencia Spain where we are celebrating the discovery of the New World just five centuries ago in Leonardo's age Both the quality of the Conference and the compromise between Practice and Theory are due to the credit of all the DEXA 92 authors
