Air Transport and Operations Lori Fischer,David Pérez,Kurt Klein,Jacco Hoekstra,P. Roling,2012-10-15 Air transport must evolve if it is to optimize its value in the 21st century The mood in the aerospace industry is positive with regard to economic recovery but the focus in this transitional time must be on sustaining value without losing sight of environmental and safety priorities This book presents the proceedings of the joint conference held in Delft the Netherlands in June 2012 incorporating the 3rd International Air Transport Operations Symposium ATOS the 3rd Association of Scientific Development in Air Traffic Management in Europe ASDA Seminar the 6th International Meeting for Aviation Products Support Processes IMAPP and the 2012 Complex World Seminar The conference brought together over 200 participants from industry and academia all of whom share the common goal of improving performance and capacity by advancing the efficiency sustainability and safety of air transport Presentations at the conference were divided equally between academic papers and more applied industry sessions The book includes the majority of academic papers presented at the conference and provides a wide overview of the issues currently of importance in the world of air transport

Individual Latent Error Detection (I-LED) Justin R.E. Saward,Neville A. Stanton,2018-12-07 Undetected human error in aircraft maintenance creates a latent error condition that can contribute to undesirable outcomes Individual Latent Error Detection I LED acts as an additional system safety control that helps an engineer recall past errors through environmental cues This book addresses a gap in the human factors research and current safety strategies by exploring the nature and extent of I LED and its benefit to safety resilience The book will describe the I LED concept using a systems

perspective and propose practical interventions to be integrated within existing safety systems as an additional control to enhance resilience against human performance variability Provides a new view of total safety based on enhanced resilience provided through the integration of I LED interventions within existing safety systems Offers an in depth exploration of the phenomenon of spontaneous recall of past event leading to error detection and recovery of latent error conditions Discusses the application of Human Factors methods to conduct real world observations in maintenance environments Describes the application of the systems view of human error to applied research Presents cost versus benefit analysis of safety interventions targeting latent error conditions
