As we wrote the first edition of The McGraw Hill Handbook our students were in our minds acting as our chief consultants We knew that their perspectives on college life were different from those of previous generations of students and so were their expectations We understood that they needed a handbook for the twenty first century with state of the art resources on writing researching and graphic design They might be using a handbook in an English composition class at 9 00 AM but at 10 00 AM they might be preparing PowerPoints for a speech course and at 11 00 AM they might need the handbook to help with a history assignment More than any other textbook their handbook was their guide not just to writing but also to learning in college In revising the third edition we have endeavored to make it an even stronger and more varied resource for achieving excellence in the ever changing digital environment that students confront in college
