Women and Power in the Middle Ages Mary Erler, Maryanne Kowaleski, 1988 Power in medieval society has traditionally been ascribed to figures of public authority violent knights and conflicting sovereigns who altered the surface of civic life through the exercise of law and force The wives and consorts of these powerful men have generally been viewed as decorative attendants while common women were presumed to have had no power or consequence Reassessing the conventional definition of power that has shaped such portrayals *Women and Power in the Middle Ages* reveals the varied manifestations of female power in the medieval household and community from the cultural power wielded by the wives of Venetian patriarchs to the economic power of English peasant women and the religious power of female saints Among the specific topics addresses are Griselda's manipulation of silence as power in Chaucer's *The Clerk's Tale* the extensive networks of influence devised by Lady Honor Lisle and the role of medieval women book owners as arbiters of lay piety and ambassadors of culture In every case the essays seek to transcend simple polarities of public and private male and female in order to provide a more realistic analysis of the workings of power in feudal society **Choosing Not to Marry** Julie Bond Hassel, 2002 This study concerns the earliest English literature encouraging women not to marry the Katherine Group It is a set of five early thirteenth century devotional texts a sermon called *Hali Meidhad* Holy Virginitie the lives of three early Christian virgin martyrs Katherine Margaret and Juliana and an allegory *Sawles Warde* Care of the Soul All of the texts celebrate virginity but they do so in a novel way Unlike other virginity literature which focuses on the sacred benefits that come to women who do not marry these texts argue that marriage harms women and they focus on the material advantages of not marrying They are profoundly non mystical articulating the values of self sufficiency and self determination Placing the Katherine Group within the male clerical tradition of Jerome and Peter Abelard a tradition whose concerns about marriage and domesticity have not been much appreciated before the author shows how the texts of the Katherine Group operate not as part of a female mystical tradition but within the male clerical tradition of anti matrimonial literature **History of**

Harper Susan Brownell Anthony, Ida Husted Harper, Elizabeth Cady Stanton, 1887 **Where Troubadours were Bishops** Nicole M. Schulman, 2013-10-18 Using one man as a lens a man known variously as Folquet Folques Folco and Folc it will examine some of the important changes and developments of the period from a new more human perspective *The Rule of Saint Benedict, a Doctrinal and Spiritual Commentary* Adalbert de Vogüé, 1983 **The School newspaper Vol. [2 issues of vols. 31 and 32].** , 1876 **Religion Index Two** , 1986 Views of Women's Lives in Western Tradition Frances Richardson Keller, 1990 This collection of essays explores the status of women as viewed in Western literature philosophy and the performing arts *Recollections of My Youth* Ernest Renan, 1929 This is a pre 1923 historical reproduction that was curated for quality Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process Though we have made best efforts the books may have occasional errors that do not impede the reading experience We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide **Chambers's New Handy Volume American Encyclopaedia** , 1883 **Nails in the Wall** Amy Elmore Leonard, 1999 **Anglo-Saxons in a Frankish World, 690-900** James T. Palmer, 2009 The Anglo Saxon mission to early medieval Germany and the Netherlands has long been seen as a major contribution to the foundation of Christian Europe Encouraged by the activities of prominent Anglo Saxons such as St Willibrord d 739 and St Boniface d 754 pious men and women left their homes in England to reform and reinvigorate the culture and politics of the Church in Northern Europe while greatly expanding the frontiers of Christendom Anglo Saxons in a Frankish World 690 900 provides the first major reassessment of the Anglo Saxons influence on the Frankish world for fifty years It argues that because figures like Boniface were so important to the cult of saints east of the Rhine stories about them became central to the ways in which different groups responded to the rapidly changing landscape of Carolingian culture and politics The study draws on letters charters and other evidence to recontextualize the numerous hagiographies written about the Anglo Saxons on the European mainland while providing fresh perspectives on attitudes to mission monasticism authority and the secular world in East Frankish society **Sermons on the Final Verses of the Song of Songs: Sermons 83-100** John (Abbot of Ford.), 1977 **McKay Hist World Soc Sg V1 2ed** James A. Schmiechen, McKay, Hilary, 1988 History of World Societies Study Guide, Volume 1, Fourth Edition McKay, Hilary, 1996 **Modern Christian Spirituality** Bradley Hanson, 1990 The thirteen essays in this collection fall into two sections The first section presents essays on the nature of spirituality and appropriate methods for its study while a second section includes historical studies of particular persons and movements within Christian spirituality Contributors include Ewert Cousins Carlos M N Eire Diogenes Allen Eric Lund and David Trickett **Loving God with His Own Love** Christine Guidera, 2001 **Women's Literacy and Female Textuality in Old English Poetry**
