Academic Language Function Toolkit Literacy How:

Strategies for Teaching English Language, Literature, and Content Mary Lou McCloskey, Janet Orr, Lydia Stack, Gabriela Kleckova, 2017-12-13 **Show, Tell, Build** Joyce W. Nutta, Carine Strebler, Florin M. Mihai, Edwidge Crevecoeur Bryant, Kouider Mokhtari, 2020-07-29 Building upon the theoretical and practical foundation outlined in their previous book *Educating English Learners* the authors show classroom teachers how to develop a repertoire of instructional techniques that address K-12 English learners (ELs) at different English proficiency and grade levels and across subject areas. *Show, Tell, Build* is organized around two decision maps for planning and implementing differentiated instruction for ELs: the Academic Subjects Protocol for teachers of academic subjects and the Language Arts Protocol for teachers of language arts. The instructional tools and techniques described in each chapter help teachers provide communication support for ELs through showing and telling and develop their language proficiency through building their skills. The book also discusses the demands that academic language poses for ELs and ways to assess students' proficiency in English. *Show, Tell, Build* provides classroom teachers, English language development specialists, literacy coaches, and school leaders with valuable knowledge and skills to support ELs' academic success. *Early Childhood Development: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2018-12-07 A focus on the developmental progress of children before the age of eight helps to inform their future successes including their personality, social behavior, and intellectual capacity. However, it is difficult for experts to pinpoint best learning and parenting practices for young children. *Early Childhood Development: Concepts, Methodologies, Tools, and Applications* is an innovative reference source for the latest research on the cognitive, socio-emotional, physical, and linguistic development of children in settings such as homes, community-based centers, health facilities, and school. Highlighting a range of topics such as cognitive development, parental involvement, and school readiness, this multi-volume book is designed for educators, healthcare professionals, parents, academicians, and researchers interested in all aspects of early childhood development. [Academic Literacies in the Middle Years](#) Sally Humphrey, 2016-11-18 The professional learning framework this book presents is designed to support teachers' understandings of how language functions in their academic disciplines. This framework, a 4 x 4 metalinguistic toolkit, is informed by systemic functional linguistic theory and international educational research on academic and disciplinary literacies. The book shows and explains how teachers have applied specific 4 x 4 toolkits with students in middle school classrooms across a range of subjects for curriculum, literacy instruction, assessment, and feedback, resulting in substantial growth for their students in high-stakes national tests of literacy as well as writing assessments in a number of subjects. In its focus on disciplinary literacies in diverse sociocultural settings, *Academic Literacies in the Middle Years* responds to contemporary international curricula for English language and literacy and the need for a strong evidence base for professional learning design. [Towards Inclusion of All Learners through Science Teacher Education](#) Michele Koomen, Sami

Kahn, Christopher L. Atchison, Tiffany A. Wild, 2018-05-16 Towards Inclusion of All Learners through Science Teacher Education serves as an indispensable resource for teachers and teacher educators wishing to understand how to educate students with exceptionalities in science This book begins with the voices and stories of the experts current and former K 12 students with disabilities sharing their experiences in science education classrooms The voices of students with disabilities are then connected to the work of leading experts in the area of science education for individuals with disabilities in an effort to address the goals of national reform documents by ensuring rigorous science experiences for all students It is written in a highly accessible and practical manner making it ideal for all educators including pre service and in service teachers teacher educators researchers and curriculum developers
