The Political Writings of Benjamin Constant Benjamin Constant, 1988

Ideologies and Political Theory Michael Freeden, 1996-10-25 Ideologies play a crucial role in the way we understand and shape the political world But no one has yet satisfactorily explained the nature of ideologies themselves In this important study Michael Freeden offers a ground breaking approach to the subject Drawing on the political experience of Britain France Germany and the USA over the past two centuries the author provides an in depth examination of the key political ideologies liberalism conservatism socialism feminism and green political thought He goes on to outline a powerful and sophisticated new theory of ideologies and argues that by paying special attention to the complexity conceptual inter relationship and historical and contemporary context of ideologies we can both better understand them and reinvigorate the study of political theory From reviews of the hardback What is on offer here is both a highly original and profoundly stimulating analysis of ideological thinking Freeden s book will undoubtedly shape and redefine the field of ideological studies as it presently stands initiating fruitful lines of research for many years to come There is much to admire in this book History of European Ideas The approach is immensely illuminating The outstanding merit of Freeden s work is that he has shown what political philosophy presently lacks and has done so by demonstrating that ideologies should not be dismissed as merely the poor cousins of philosophies Both political theory and political philosophy have a great deal to learn from this book Radical Philosophy

Political Responsibility Antonio Y. Vázquez-Arroyo, 2016-05-03 Scholars in the humanities and social sciences have turned to ethics to theorize politics in what seems to be an increasingly depoliticized age Yet the move toward ethics has obscured the ongoing value of political responsibility and the vibrant life it represents as an effective response to power Sounding the alarm for those who care about robust forms of civic engagement this book fights for a new conception of political responsibility that meets the challenges of today s democratic practice Antonio Y V zquez Arroyo forcefully argues against the notion that modern predicaments of power can only be addressed ethically or philosophically through pristine concepts that operate outside of the political realm By returning to the political the individual is reintroduced to the binding principles of participatory democracy and the burdens of acting and thinking as a member of a collective V zquez Arroyo historicizes the ethical turn to better understand its ascendance and reworks Adorno s dialectic of responsibility to reassert the political in contemporary thought and theory
