Manual of Pig Production in the Tropics H. Serres,1992 The pig is one of the earliest domesticated animals and plays an integral part in a number of peasant economies in the tropics for example in Oceania and Southeast Asia In several African countries and others such as Thailand increasingly intensive pig production has played a significant role in the overall economic growth and the feeding of an expanding urban population Furthermore although in some circumstances pigs do compete with humans for food resources they are also very versatile at utilizing byproducts and wastes that are not suitable for human consumption There is therefore considerable potential for developing pig production in the tropics and this book provides an accessible guide to the subject for students farmers and advisory workers It is translated from an original French edition compiled by the Institut d levage et de M decine V t rinaire des Pays Tropicaux Anchorage Zone Reinforcement for Post-tensioned Concrete Girders ,1964 *The Income Tax Decisions as an Object Lesson in Constitutional Construction* Christopher Gustavus Tiedeman,1895
