

# BRANDS THAT MAKE THE BEST CARS

We rank automakers from best to worst on their scores and survey results.

BY JEFF S. BASKETT

**How we made the rankings:** To figure out which automaker makes the best cars, we looked at the overall reliability score, customer satisfaction, and the CR Best Buy, Best Value, and Best Price awards. We also looked at the number of models that earned a CR Best Buy, Best Value, or Best Price award. We then ranked the automakers based on their overall scores and survey results. We also looked at the number of models that earned a CR Best Buy, Best Value, or Best Price award.

and vehicle reliability of its customers can show you if the right direction when making a purchase. These ratings are based on the average Overall Score, a combination of our most recent survey results, reliability, and owner satisfaction data, and reflect the

of all the models from each automaker. The top five brands this year are the same ones as 2023, with BMW leading the pack with an 82 score, followed by Subaru as the leading manufacturer brand at 80. The key for both companies is their consistent combination of high

customer scores and very good predicted reliability. Porsche takes the third position with a score of 80. Both Porsche and Cadillac moved up 10 positions this year due to their improved reliability. Keep in mind that our high scoring brands may have some lower performing

models, so be sure to check the ratings page (page 56) for the data you're interested in. This is especially true for bigger brands like Ford and Toyota, which have some models that performed far better than others in our data. If the brands CR ranked last

were recommending every model rated from about 60th (BMW, Porsche, Honda, Kia, Kia, Mazda, and Audi) brands you'll see our low and below average ratings from these companies with confidence. There are also brands that don't have a single model recommended by CR. Consider

carefully when buying one of these! To be included in the brand ranking, CR has to have tested at least two current models from a company. We've tested only one model from Lotus, Polestar, and Ram, so they aren't included this year.
