October 2009

1 About this study aid...

This document has been designed to make revision and self-marking easy for students studying AHS chemistry in Scotland.

The information in this publication has been reproduced to support NQA qualifications only on a non-commercial basis and can only be shared on that condition.

2 How to use...

The following two pages contain tables which cross-reference the course topics with NQA question numbers for the years 2004-08.

The first table is for multiple-choice questions, the second covers Section 2 questions. Each question number is hyperlinked to the NQA question and clicking it will take you there. The question pages have further hyperlinks taking you back to the topic grid (top) or to the NQA marking instructions (bottom). Of course, you can always just treat it as a collection of question papers with marking annotations. This will be useful for most of course-based revision.

The NQA papers are included in this document to avoid the problems of broken hyperlinks to web pages that have disappeared. The document is self-contained and does not require an internet connection and so is usable anywhere. Mr Stephen, Head of Lower Academy
