Business Leadership Paperback:

Good Business Mihaly Csikszentmihalyi, 2004 In today's society it is scientists and businesspeople who wield the most influence and power. Mihaly Csikszentmihalyi believes this also gives them the responsibility to provide for the needs not just of their workforce but of the community in its largest sense. This book helps those in power towards a new understanding and vision of what it means to be a leader. The people interviewed here including Peter Bijur CEO of Texaco, Michael Markkula co-founder of Apple Computer, Anita Roddick founder of The Body Shop and Ted Turner vice chairman of AOL Time Warner are recognised both for their success and because they care for more than success. Their case studies provide a blueprint for doing business that is good not just in the material sense but also on spiritual and ethical levels. Good Business shows leaders and managers and employees how to contribute to the development of an enjoyable life that provides meaning to a society that is just and evolving and ultimately to the sum of human happiness.

Cultureship Jason Bingham, 2013 Contrary to popular belief leadership is not the solution to every business problem or sustained business success. The answer lies in the culture of the organization. Strong business leaders follow their organization's culture and guide with a system of beliefs called Cultureship. Business managers who practice Cultureship know that developing and leading high performing cultures can be learned and taught. Backed with irrefutable evidence, Cultureship introduces this system of beliefs and illustrates how changing culture can quickly lead to better business results: how every employee wants to grow, serve and perform; how associates ultimately own the culture; and how successful leaders don't tell they lead. Once you understand each of the ten beliefs and how they fit together as a unified whole, you will be on your way to becoming a great leader. Applying Cultureship to your own business, whether you're a novice or a more experienced manager, will differentiate your organization, increase productivity, lead to higher profits and elevate you to a more advanced level of personal leadership success.

Ruthless Execution Amir Hartman, 2004 Hartman, author of the bestselling NETREADY, identifies the central ingredients that help certain companies to get beyond the wall and thrive and shows how to instill these ingredients in an organization.

Master of Business Leadership Works! Phil Johnson, 2012-12-04 Whether you want better business results, personal results or both, this is the system you NEED to get the personal and organizational results you WANT and MUCH MORE.
