economic development Third that governance should be not only enhanced through ensuring adequate capacity but also constantly monitored and it should be a permanent phenomenon The need to strengthen links between and among the government civil society and the private sector cannot be overemphasized this is necessary to ensure the dynamism that should characterize a good governance environment This environment should include a new Sierra Leonean psyche that of the interests of the state first anchored in attitudinal and behavioral change In this book the author also attempts to determine how far Sierra Leone has gone in its practice of democratic good governance and the challenges it is facing in trying to do so He also makes recommendations on how these challenges could be surmounted
