Solutions Manual to Study Guide and Working Papers for College Accounting John Ellis Price, M. David Haddock, Horace R. Brock, 1999-04

Research Methods in Pharmacy Practice Zubin Austin, Jane Sutton, 2018-02-21

This is a comprehensive guide to applying research methods to practice problems. It uses case-based examples and activities rooted in practice to support development of knowledge, skills, and confidence in applying evidence-based research methods. An array of different methodologies and qualitative/quantitative methods are described. Examples of topics include distinction between methodologies and methods, ethics protocols, as well as design, implementation, data analysis, interpretation of findings, using methods such as surveys, interviews, focus groups, observational research, database mining, text and document analysis, quality improvement, PDSA cycles, economic cost-benefit evaluations. Perfect for MPharm students doing their research thesis but relevant to all bioscience students undertaking research projects. Use of pharmacy practice case examples in community, hospital, ambulatory, primary care, and other settings throughout. Examples of how to tackle a research question from different perspectives, e.g. which is the best way to answer each question and why. Inter-professional practice and research emphasized. Self-assessment and self-reflection questions to help readers confirm their understanding. Learning: A one-stop research method teaching resource for faculty.
