Law and the Digital Reanimation of the Dead Pranav Menon, 2026-02-09 This book analyzes the legal tensions that exist in the economy that purports to reanimate the dead using postmortem digital technologies Technological reanimation has proven to be big

business with many notable commercial entities investing in this afterlife economy Postmortem technologies convincingly replicate the appearance physiognomy conversation styles and thought patterns of a deceased individual by generating digital copies that act in their stead In the entertainment industry new works can be created with dead celebrities through a postmortem copy that is managed by their representatives The result is an economy in which the dead are offered as a product or service to consumers with some having their artistic legacies extended past death through an afterlife career Many stakeholders stand to benefit from such a lucrative afterlife economy but the law is simply not prepared for the issues that will arise with this exploitation of the dead Reanimation requires the exploitation of one s reputation persona artistic works and personal data However the corresponding legal protections are either nonexistent inapplicable or inconsistent across borders depending on which posthumous interest is analyzed In response and by studying the contours of the existing legal protections in the afterlife economy this book proposes a system rooted in the shared ownership of one s postmortem copy and the responsible stewardship of legacies through fiduciary duties Law and the Digital Reanimation of the Dead will be of considerable interest to scholars working in the areas of entertainment law intellectual property and law and technology as well as others with professional interests in the area

Medium Hot Hito Steyerl, 2025-05-20 Hito Steyerl is one of the most celebrated artists of our time Her work both as an artist and a writer has consistently challenged the political boundaries between art and technology In this new collection of groundbreaking essays she explores how AI the use of large language models and the algorithmic creation of imagery transform our understanding of the world She argues that such practices cannot be divorced from the economic and political conditions of the times *Medium Hot* is a collection of scintillating meditations on the limits of art and technology the essential handbook for the present conjuncture The pieces here probe the manufacture and distribution of images in the age of AI and climate change She asks whether art can be made not only by machines but for machines She argues against the production of images that heat up the planet disfranchise workers and fuel the arms trade and questions whether such creations can even be called art In an era of such rapid change Steyerl does vital work investigating whether machine learning will infiltrate every aspect of our lives and what that means for the future
