Where Value meets Strategic Sustainable Development](#) Sophia von Petersdorff,2018-08-13 Master s Thesis from the year 2018 in the subject Business economics General grade 1 6 Blekinge Institute of Technology Strategic Sustainability language English abstract The current global economic paradigm centred on growth is a significant barrier in the transition towards a sustainable society Business as Usual companies operating within

this paradigm are perceived to prosper at the expense of society and environment which is not viable on a finite planet The need to rethink the purpose of business is inevitable as maximising shareholder value has been deemed insufficient to create a sustainable society This study aimed to explore how business models can be used to create value that supports Strategic Sustainable Development Previous research proposed that the concept of Business Models for Sustainability helps business place sustainability at the core of all consideration A qualitative research was chosen for which we employed the Framework for Strategic Sustainable Development and combined a literature review with an investigation of three expert groups to answer our research question Our findings showed that compared to other value forms system value is the most appropriate concept for businesses striving towards sustainable development Based on our findings six themes emerged that businesses need to address to accelerate the speed of change towards sustainability To make a relevant contribution to the intended audience a prototype has been developed based on our findings

The Business Model: How to Develop New Products, Create Market Value and Make the Competition Irrelevant Alexander Chernev, 2017-03-19 New product success is often attributed to intuition Yet while some products born from intuition do make it big many others crash and burn The reason is that intuition is only one aspect of new product development The other key ingredient of success is having a business model that outlines the ways in which new products will create market value This book offers a systematic approach to identifying market opportunities and developing breakthrough business models It outlines the key principles of business model generation presents a value based framework for developing viable new offerings and provides a set of practical tools for creating a meaningful value proposition that drives market success The business model framework outlined in this book applies to a wide range of companies startups and established enterprises consumer packaged goods companies and business to business enterprises high tech and low tech ventures online and brick and mortar entities product manufacturers and value added service providers nonprofit organizations and profit driven companies Practical actionable and succinct The Business Model is the essential reference and how to guide for everyone seeking to achieve market success from entrepreneurs to experienced managers from senior executives to product designers from those creating new market offerings to those improving on existing ones This book is for those passionate about building great products that create market value and disrupt industries
