FIGHTING FOR DEMOCRACY Thomas E. Brymer, 2022-10-15 Our democracy is now under attack from within and without as it has never been since the Civil War Yet the evidence is clear that Americans are as a whole civically illiterate and woefully unprepared for the assault our democracy is undergoing For Americans to be prepared to function effectively as constructive citizens in their democracy in the 21st century and beyond they must be equipped with knowledge and a skill set that is not effectively taught today Fighting for Democracy is a call to deconstruct our civics education in this country and reconstruct it to meet the complex needs and pressures our democracy faces today Certainly the civics of tomorrow must include continuing what we teach today about the structure organization and how at least in theory our government is supposed to function But there is far far more that must be taught to deal with the siege our democracy is now under Fighting for Democracy provides a roadmap for improving our civic education so we can withstand this anti democratic movement now underway here We must teach Americans about servant leadership and how to recognize counterfeit leaders who wish to lead us with leadership styles that are toxic and antithetical to democracy including autocracy fascism kleptocracy and populism We must return to a national consensus as to the importance in a democracy of a free news media that is an arbiter of truth and not simply a funnel for one sided biased opinions and editorials masquerading as factual news Americans must relearn how to think critically recognize major change in the public square as well as readily identify when we are not being told the truth are being gaslighted and worse becoming willing to accept conspiracy theories and radicalization of our political parties as being normative We must gain a clearer understanding of the multi dimensional concept of freedom democratic norms and values our history as well as to once again value public service We must reconnect with a love for the idea of democracy itself which includes a keen appreciation for the glue that holds it together the common good At the same time we must rediscover why our Founders believed democracy while sometimes messy was ultimately the one form of government that could truly serve We the People and provide Americans with the best means possible for pursuing as a nation our hopes dreams our freedom and the pursuit of happiness All these concepts ideas truths and more are a must for Americans to know in order to be able to fight and for us to keep our democracy in today s increasingly anti democratic world That is the purpose of Fighting for Democracy Make no mistake about our democracy We the People must learn now and quickly how to improve our civically literacy including how to become better informed and more constructively engaged citizens If we do not we will not be able to effectively fight to keep our democracy and risk losing everything we have fought for since our nation s birth And American democracy is indeed

worth fighting for not just for us today but most importantly for our children grandchildren and all future generations of Americans Fighting for Democracy was written to equip us to do exactly that *Business and Society* Sonya Scott, Kean Birch, Richard Wellen, Audrey Laurin-Lamothe, 2023-08-10 Corporations dominate our worlds They employ us sell to us and influence how we think and who we vote for All aspects of this relationship are explored from an historical analysis of the spread of capitalism to the regulation ethics and exclusionary implications of business in contemporary society The book also examines how corporate power and capitalism might be resisted and outlines a range of alternatives from the social economy through to new forms of open access or commons ownership This second edition includes new chapters that explore how global crises such as the Covid 19 pandemic and the climate emergency have exposed tensions within and among national business systems It also addresses the need for new ways of holding business accountable in the era of digital platforms like Facebook Google and Amazon which use algorithmic personalization to exert private control over the infrastructure of our societies
