culture surrounding our chosen way of life Many authors have written about mods and the infamous and often over hyped beach battles of the 1960s but hardly any have tried to capture the atmosphere of the modern scene in print We still owe the original mods for fuelling the imagination of past present and future generations and for leaving a rich scooter heritage behind them Although the mod way of life was the spark which lit the fuse for many of us the majority of scooter riders have evolved into lifestyle scooterists We may not dress in a particular style our scooters may not be adorned with lights and mirrors but we still burn with the same passion as our scooter riding ancestors It s over sixty years since the first Italian scooters rolled off the production lines but there is still a buzzing and vibrant lifestyle surrounding them The small capacity machines have overtaken the lives of thousands of us often to the detriment of everything else we hold dear Careers relationships and families have suffered for this overwhelming and expensive addiction An addiction to which there is no cure We live and breathe the sickly sweet smell of synthetic two stroke oil and worship at the altar of our chosen gods Lambretta and Vespa or occasionally Gilera and Italjet Our hands are permanently ingrained with the oily tattoo s of a thousand engine rebuilds and our major organs have suffered the long term effects of our hedonistic lifestyle Including interviews with well known scootering personalities over 150 colour photographs of award winning custom scooters best selling scooter models and information on rallies and events this book is a must have for anyone interested in these fun machines [Return to Glory!](#) Robert Ackerson,2022-04-12 1952 was one of the most important years in Mercedes Benz racing history after a 13 year absence the marque returned to motor sport competition with an automobile that rewrote the history of modern sports car racing The 300 SL s debut was the culmination of a long difficult road back to racing for Mercedes Benz This book vividly depicts the 300 SL s performance in the five races in which it competed in 1952 and tells the story of how it became the most successful competition sports car of that year Through dramatic photographs and equally stirring text one of the greatest years of sports car racing is brought to life filled with automobiles often finished in national racing colours prepared by great factory teams driven by men who were national sporting idols and raced under gruelling conditions unique to the age From its Mille Miglia debut through the Nurburgring the Le Mans 24 Hours to its greatest race the Carrera Panamericana the 300 SL s career from conception to retirement is presented culminating with a detailed photographic essay illustrating restoration of the oldest 300 SL in existence **Vincent Motorcycles** Philippe Guyony,2021-10-28 Very few motorcycles have carved a mark in history like the Vincent V twin from its arrival in 1946 and up to the present day On the road in club racing in drag races or competing for land speed records it dominated the motorcycle world leading to the famous catchphrase coined by the factory The World s Fastest Standard Motorcycle It was a FACT NOT a slogan Images such as that of Rollie Free in swimming trunks laying flat on his works modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948 have now passed into posterity In fact the big Vincent was so ahead of its time that it continued to compete successfully almost arrogantly in racing until the mid 1970s against modern bikes No other motorcycle

in the world can claim this kind of achievement Following the premature ending of Vincent production Fritz Egli s 1967 Egli Vincent was the first chassis completely redesigned for a Vincent in 21 years Egli s machine inspired numerous builders for several generations and this book traces holistically the story of all those motorcycles in the broad context of the classic and modern history of the Vincent Understand how the flame of passion still burns brightly today **Red Book** ,1977 *The Book of the Ferrari 288 GTO* Joe Sackey,Nicola Materazzi,2013 This book covers the background conception design production and aftermath of the iconic Ferrari 288 GTO including the prototypes the early production cars the mainstream production cars in their various specification guises and the Evolution cars planned for the aborted Group B FIA race series A comprehensive and beautifully illustrated look at a unique sports car *The Northern Logger and Timber Processor* ,1990 **Sears** Sears, Roebuck and Company,1963
