*Weblogs. A Critical Analysis of a New E-business Model* Carina Schebitz, 2018-06-18 Bachelor Thesis from the year 2016 in the subject Business economics Offline Marketing and Online Marketing grade 2.0 University of Applied Sciences Essen language English abstract The primary function of this bachelor thesis is to connect the subject of E Business models with the web 2.0 phenomenon of weblogs Therefore it is necessary to ascertain whether blogs can commercially perform as a characteristic of E Business models Furthermore this paper should reveal what specific factors need to be considered and which challenges can occur when professionally operating a blog Thus the digital economics research for example the literature of Kollmann Reynolds or Wirtz provide a broad base concerning the revenue models and the categorization of classical E Businesses such as E Commerce Websites However it does not scrutinize the particular requirements of weblogs On the other hand the relatively new body of literature about blogs focuses on the software and technological fundamentals the specific characteristics as well as the different characteristics Moreover in the year 2016 many professional bloggers exist that can make a living from their publishing occupation This indicates that weblogs already represent a form of an E Business model However the author does not know

of published studies nor papers that have empirically investigated or described the business models of weblogs. In order to fill that void, the purpose of this bachelor thesis is to provide a systematical guideline from an economic perception in order to establish a weblog. It will include potential risk factors and particular requirements as the following chapters will enumerate more clearly. Ultimately, this paper's aim is to serve potential future bloggers in gaining knowledge about factors they need to pay attention to from the beginning of their work as well as marketers that need to regard unwritten rules when it comes to working with influencers such as bloggers.

**An Ugly Truth** Sheera Frenkel, Cecilia Kang, 2021-07-13 The award-winning insiders' account of the scandals and toxic culture at Facebook through high-caliber investigative reporting. Kirkus starred review. In *An Ugly Truth*, New York Times reporters Sheera Frenkel and Cecilia Kang present a behind-the-scenes exposé of Facebook's fall from grace. They reveal explosive details about how the tech giant set out to connect the world while also mishandling users' data, spreading fake news, and amplifying dangerous, polarizing hate speech. The company, many said, had simply lost its way. But the truth is far more complex: Facebook's engineers were instructed to create tools that encouraged people to spend as much time on the platform as possible, even if that meant promoting inflammatory rhetoric, conspiracy theories, and partisan filter bubbles. And while consumers and lawmakers were outraged by privacy breaches and misinformation, Facebook solidified its role as the world's most voracious data-mining machine, posting record profits and shoring up its dominance via aggressive lobbying efforts. Drawing on their unrivaled sources, Frenkel and Kang take readers inside the alliances and rivalries within the company to demonstrate that the company's missteps were no such thing: this is how Mark Zuckerberg and Sheryl Sandberg built Facebook to perform. In *An Ugly Truth*, they are at last held accountable. A Book of the Year, *Fortune*, *Foreign Affairs*, *The Times*, *London Cosmopolitan*, *TechCrunch*, *WIRED*
