Despite having been published about two years ago for the first time the continuous demand for this book encouraged me to
prepare this revised and enlarged edition Many parts of the text have been rewritten type errors traced and corrected and
the bibliography largely modified to include many of the references published about the subject of soil pollution in the
previous ten years I should like to express my thanks to the staff of Springer Verlag Heidelberg for their cooperative efforts
in preparing this edition I also would like to thank Mr Michael Sidwell B A for the extreme but characteristic care with which
he read and revised the proofs I hope that in this new edition the book may continue to serve the needs of students and
professionals alike interested in the subject of soil pollution Ibrahim A Mirsal Preface to the First Edition Whoever has
enjoyed following the legendary duel between the Egyptian Pharaoh and his magicians Alchemists on one side and Moses and
his brother Aaron on the other as is vividly narrated in the Bible must have realised that people at least those living at or
near the eternal battlefields of the Middle East have always had knowledge about the terrible consequences of soil pollution
by chemicals This knowledge must have existed long before Moses and his Pharaoh Nobody knows when people became
aware of this yet it must have been born in very early times reaching back to the dawn of human conscious Chemical
