Research Agenda for Transforming Separation Science National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Board on Chemical Sciences and Technology, Committee on a Research Agenda for a New Era in Separation Science, 2019-10-30 Separation science plays a critical role in maintaining our standard of living and quality of life Many industrial processes and general necessities such as chemicals medicines clean water safe food and energy sources rely on chemical separations However the process of chemical separations is often overlooked during product development and this has led to inefficiency unnecessary waste and lack of consensus among chemists and engineers A reevaluation of system design establishment of standards and an increased focus on the advancement of separation science

are imperative in supporting increased efficiency continued U S manufacturing competitiveness and public welfare A Research Agenda for Transforming Separation Science explores developments in the industry since the 1987 National Academies report Separation and Purification Critical Needs and Opportunities Many needs stated in the original report remain today in addition to a variety of new challenges due to improved detection limits advances in medicine and a recent emphasis on sustainability and environmental stewardship This report examines emerging chemical separation technologies relevant developments in intersecting disciplines and gaps in existing research and provides recommendations for the application of improved separation science technologies and processes This research serves as a foundation for transforming separation science which could reduce global energy use improve human and environmental health and advance more efficient practices in various industries

Industrial Hygiene Control of Airborne Chemical Hazards, Second Edition
William Popendorf, 2019-06-26 Are you a practicing occupational hygienist wondering how to find a substitute organic solvent that is safer to use than the hazardous one your company is using Chapter 6 is your resource Are you a new hygienist looking for an alternative technology as a nonventilation substitute for an existing hazard Chapter 8 is your resource Are you looking for an overview of ventilation Chapters 10 and 11 are your resource Are you an industrial hygiene student wanting to learn about local exhaust ventilation Chapters 13 through 16 are your resource Are you needing to learn about personal protective equipment and respirators Chapters 21 and 22 are your resources This new edition brings all of these topics and more right up to date with new material in each chapter including new governmental regulations While many of the controls of airborne hazards have their origins in engineering this author has been diligent in explaining concepts writing equations in understandable terms and covering the topics of non ventilation controls both local exhaust and general ventilation and receiver controls at the level needed by most IHs without getting too advanced Taken as a whole this book provides a unique comprehensive tool to learn the challenging yet rewarding role that industrial hygiene can play in controlling airborne chemical hazards at work Most chapters contain a set of practice problems with the solutions available to instructors Features Written for the novice industrial hygienist but useful to prepare for ABIH certification Explains engineering concepts but requires no prior engineering background Includes specific learning goals that differentiate the depth of learning appropriate to each topic within the fuller information and explanations provided for each chapter Contains updated governmental regulations and abundant references Presents a consistent teaching philosophy and approach throughout the book Deals with both ventilation and non ventilation controls

Design-Based Concept Learning in Science and Technology Education Ineke Henze, Marc J. de Vries, 2021-02-22 Learning concepts is a real challenge for learners because of the abstract nature of concepts This holds particularly true for concepts in science and technology education where learning concepts by doing design activities is potentially a powerful way to overcome that learning barrier Much depends however on the role of the teacher Design Based Concept Learning in Science and Technology Education brings together contributions

from researchers that have investigated what conditions need to be fulfilled to make design based education work The chapters contain studies from a variety of topics and concepts in science and technology education So far studies on design based learning have been published in a variety of journals but never before were the outcomes of those studies brought together in one volume Now an overview of insights about design based concept learning is presented with expectations about future directions and trends
