The Perfect Blend Michele Eaton, 2020 Many blended learning initiatives start from the top down and are designed for specific populations or make drastic changes to a school's learning structure. But any K-12 classroom teacher can find ways to leverage blended learning within the four walls of their classroom regardless of the constructs of their learning environment. All they need is a willingness to rethink their role in the classroom, moving from content deliverer to architect of learning. In *The Perfect Blend* you'll learn how to create a homemade recipe for effective blended learning within your classroom. Rather than focusing on finding and implementing a specific established model, author Michele Eaton shows teachers how to embrace the flexibility of blended learning to take an active role as a designer of learning in the classroom and in the process helping students find their voices as advocates for their education.
