Elements of General and Biological Chemistry John R. Holm, 1987 This book is a shorter version of the third edition of *Fundamentals of General Organic and Biological Chemistry* 1986. It incorporates the recommendations of the Task Force on Chemical Education for Health Professions and meets the needs for a basic text in a one term course in chemistry for students aiming for careers in professional health care fields.

Foundations of College Chemistry Morris Hein, Susan Arena, Cary Willard, 2016-08-02 This text is an unbound three hole punched version. Used by over 750 000 students. *Foundations of College Chemistry Binder Ready Version 15th Edition* is praised for its accuracy, clear, no nonsense approach and direct writing style. *Foundations* direct and straightforward explanations focus on problem solving, making it the most dependable text on the market. Its comprehensive scope, proven track record, outstanding text examples and problem sets were all designed to provide instructors with a solid text while not overwhelming students in a difficult course. *Foundations* fits into the prep/intro chemistry courses which often include a wide mix of students from science majors not yet ready for general chemistry, allied health students in their 1st semester of a GOB sequence, science education students for elementary school teachers to the occasional liberal arts student fulfilling a science requirement. *Foundations* was specifically designed to meet this wide array of needs.
