

Digestive System

Six friends were talking about the function of the digestive system. This is what they said:

- Mina:** "I think the main function is to release energy from food."
- Manny:** "I think the main function is to help us breathe."
- Sasha:** "I think the main function is to break food down into molecules that can be absorbed by cells."
- Harriet:** "I think the main function is to break food down in the stomach into small pieces of food that can be used by the body."
- Todd:** "I think the main function is to carry bits of food and nutrients to all the different parts of our body."
- Curtis:** "I think the main function is to store food so that we can get energy when we need it."
