

Chapter 18 Active Reading Guide
Evolution with Modification

The first study mentioned used macrofossils of a form to study the fossil record and evolutionary processes that are being discussed. In other places, the text mentioned fossils as a way of testing theories for Darwin's theory of evolution. Therefore, the scientific evidence is consistent with present scientific understanding that the evolution that accompanied the fossil record.

Objectives

1. Explain evolution through adaptation as a process of change, as discussed in the previous chapters. Discuss with modification.

Evolution: a change in the genetic composition of a population from generation to generation.

Objectives 2

This section deals with the important early evolutionary events in Darwin and it sets the stage for the study of evolution.

2. How did the early evolutionary events lead to the origin of species?

Charles Darwin's theory of evolution is based on the concept of natural selection. This idea is based on the following principles:
