

Decision-Making Matrix – Template

A decision-making matrix is a useful tool to assist in thoughtful decision making. It uses a systematic approach to narrow down and compare two or more options by using a combination of weighted voting and ranking. This sample with guiding statements can familiarize you with the process. This template has been provided for schools or districts to customize for their own use when making decisions about assessments.

Purpose of the Assessment:

Explain whether the assessment will be used for accountability, evaluation, curriculum or instructional programs, resource allocation or another purpose.

Purpose of the Assessment Statement :	
--	--

Criteria and Descriptors for Review:

Review the criteria and descriptors below for a more clarified understanding of each.

Established Selection Criteria	Description
A: Purpose	Alignment with accountability, evaluation, curriculum or instructional programs or resource allocation
B: Technical Manuals	Provides purpose and use, assessment development information, skills measured, item types and data to support validity and reliability
C: Content/Skill Alignment	Aligns with designated standards and content and curriculum being taught
D: Rigor Alignment	Alignment of cognitive complexity of items and balance of representation shown in a test blueprint or guidance document
E: Usability of Reports	Reports provide purposeful, accurate information that is manageable to download, share, and manipulate. Reports provide directions for specific action, are of varied types related to the types of reports, and appropriate for intended audiences. Costs, if applicable, are clarified.
F: Administration/Implementation	Covers details related to costs, administering the assessment, scoring, directions given and professional learning needed.

Weighting the Criterion:

Weighting each criterion helps a group to decide what is most important among the criteria they are considering and helps to narrow down the assessment options. Districts should determine their own weighting scale such as 0-3, 0-5, or another scale.
