Decision-making Under Different Economic and Political Conditions Pieter Johan Diederik Drenth, P. L.

Koopman, Bernhard Wilpert, 1996 Paperback This book covers the contents of an international symposium on leadership and decision making under different and changing circumstances held at the Royal Netherlands Academy of Arts and Sciences Amsterdam The Netherlands June 1 3 1994 This volume brings together theoretical views and empirical evidence on organizational decision making The common denominator in the contributions is that they all reflect on decision making in organizations under changing conditions Research on Judgment and Decision Making William M. Goldstein, Robin M.

Hogarth, 1997-06-13 This book offers an overview of recent research on the psychology of judgment and decision making the field that investigates the processes by which people draw conclusions reach evaluations and make choices An introductory historically oriented chapter provides a way of viewing the overall structure of the field its recent trends and its possible directions Subsequent sections present significant recent papers by prominent researchers organized to reveal the currents connections and controversies that animate the field Current trends in the field are illustrated with papers from ongoing streams of research The papers on connections explore memory explanation and argument affect attitudes and motivation Finally a section on controversies presents problem representation domain knowledge content specificity rule governed versus rule described behavior and proposals for radical departures and new beginnings in the field Students and researchers in psychology who have an interest in cognitive processes will find this text to be rewarding reading

Economics Working Papers John Fletcher, 1978 **Contemporary Issues in Decision Making** Katrin

Borcherding, Oleg Ivanovich Larichev, David M. Messick, 1990 Presented in this book are chapters covering the most recent advances in the study of decision making There are contributions from psychology management systems analysis and computer science The book is divided into sections on individual decision processes social factors in decision making risk management and decision structuring Many contributions have been made by Soviet scientists The papers originate from the 12th Research Conference on Subjective Probability Utility and Decision Making SPUDM held at Moscow State University in 1989 Index of Conference Proceedings British Library. Document Supply Centre, 1999 Negotiation, Decision Making

and Conflict Management Max H. Bazerman, 2005 Selections of articles from various sources **Research Report, Publication List** Massachusetts Institute of Technology. Center for International Studies, 1966 **The Vietnam War Files** Jeffrey P. Kimball, 2004 The new evidence uncovers a number of behind the scenes plays such as Nixon's secret nuclear alert of October 1969 and sheds more light on Nixon's goals in Vietnam and his and Kissinger's strategies of Vietnamization the China card and triangular diplomacy The excerpted documents also reveal significant new information about the purposes of

the linebacker bombings Nixon's manipulation of the POW issue and the conduct of the secret negotiations in Paris as well as other key topics events and issues All of these are effectively framed by Kimball whose introductions to each document provide historical context

Bradley v. Saranac Community Schools; Lansing Association of School Administrators v. Lansing School District Board of Education, 455 MICH 285 (1997), 1997 106020 **Otto E. Miller, Plaintiff-Respondent, Against Fred W. Smythe, Defendant-Appellant**, **Governance by Decree** Ruth P. Morgan, 2004 The Voting Rights Act of 1965 which originally was intended to prohibit barriers to black registration and voting has been hailed as a triumph for civil rights and as a catalyst for the election of minorities to public office in both the Deep South and the urban North To advance its objective federal courts instructed many cities to change from at large to single member district electoral systems as a way to ensure that minorities had a reasonable chance to elect representatives of their choice In the first book to critique the implementation of this landmark legislation in a major American city Ruth Morgan examines its effect on local governance over forty years in Dallas and shows that it had unintended consequences for racial politics representation and public policy Breaking from studies that measure the success of the VRA in terms of increased minority representation Morgan assesses the consequences of the Act for Dallas city government and for the wider interests of minorities as well While endorsing the original intent of the VRA Morgan believes that this intent was subverted by subsequent amendments to the Act and by the courts attempts to advance the political standing of particular minority groups She argues that court imposed single member districts have created in Dallas a city council infected with parochialism and careerism a result of members no longer having to compromise to win citywide votes and have had an adverse impact on governmental effectiveness and voter turnout With corruption and cronyism now rampant voting rights legislation and litigation have ultimately failed to fulfill the hopes and aspirations of the unempowered and the district system has created an incentive for continued racial separation *Governance by Decree* offers a pointed assessment of the complexities and contradictions produced by the voting rights law while at the same time calling for the federal judiciary to exercise restraint in imposing its will when it lacks the capacity to make choices that are inherently political Morgan's powerfully argued case study should inspire much debate and inform forthcoming congressional deliberations over the renewal of the preclearance section of the VRA in 2007
