Degrasi Episode Guide:

TV Guide, 2007 Outside Looking in Mary Jane Miller, 2008-06-09 Widely sold abroad Beachcombers and North of 60 are what many international audiences know about Canada In *Outside Looking In* Mary Jane Miller traces the evolution of representations of First Nations people in fifty years of Canadian television broadcasts **The Penguin Guide to Children's Tv and Video** Jack Livesley, Frank Trotz, 1993 *Seasons of "The O.C."* , *Video Rating Guide for Libraries*, 1990 **Programming Reality** Zoë Druick, Aspa Kotsopoulos, 2008-08-01 *Programming Reality* Perspectives on English Canadian Television the first anthology dedicated to analyses of Canadian television content is a collection of original interdisciplinary articles combining textual analysis and political economy of communications It explores the television that has thrived in the Canadian regulatory and cultural context namely programs that straddle the border between reality and fiction or even blur it The conceptual basis of this collection is the hybrid nature of television fare the widely theorized notion that all mediations of reality involve fiction in the form of narrative or symbolic shaping Each of the contributions here is a reminder too of the significant relationship of television to nation building in Canada to the imaginative work involved in thinking through the relations that constitute nations citizens and communities The collection focuses on English language Canadian television because the imperatives guiding its texts are markedly different from those pertaining to their French language counterparts The collection therefore develops a nuance of perspective on the cultural and political economic specificities that inform the imaginative work of television production for English Canada *The Prime Time Closet* Stephen Tropiano, 2002 A comprehensive study of homosexuality on television from the 1950s to 2002 Through an analysis of over 300 television episodes made for TV movies and mini series this fascinating account of the evolution of the portrayal of gay men and lesbians offers an in depth look at how four major television genres medical series police detective shows drama and situation comedies approached the subject of homosexuality From 1950s talk shows that tackled the problem of homosexuality to Ellen DeGeneres's historic coming out in 1997 it reveals how television's treatment of homosexuality has reflected and reinforced society's ignorance and fear of gay men lesbians and transgender people and celebrates the programs that broke new ground in their sensitive enlightened approach to homosexuality and gay related themes and issues such as homophobia gay bashing and AIDS From publisher description *Complex Magazine and Guide*, 2004 Program Guide, 1990 **Fit to Print : the Canadian Student's Guide to Essay Writing** Joanne Buckley, 1991 *The Fantasy of Disability* Jeffrey Preston, 2016-07-15 What are the unconscious fantasies circulating in representations of disability What role do these fantasies play in defining the condition of disability What can these fantasies teach us about human vulnerability writ large *The Fantasy of Disability* explores how popular culture texts such as *Degrassi The Next Generation* and *Glee* fantasize about what life with a physical disability must be like while at the same time exerting tremendous pressure on disabled individuals to conform their identity and behaviour to fit within the margins of these societally perpetuated

archetypes Rather than merely engaging with how disability is represented though this text investigates how representations of disability reveal their nondisabled producers to be perpetually anxious subjects doomed to fear not just the disabled subject but the very reality of disability lurking within Situated at the nexus of disability studies media studies and psychology this text presents an innovative way of analyzing representations of disability in popular culture inverting the psychoanalytic gaze back upon the nondisabled to investigate how disability can become a lens through which to interrogate the normative subject

American Culture and the Media Anne Cassebaum, Rosemary Haskell, 1997 The book is based on the author's belief that reading and writing skills are best taught together and in the context of high interest subject matter In section I the mass media form a familiar and reassuring yet rich and complex subject for exploration and analysis Section II the rhetoric and brief handbook gives advice and information for students to use as they work on their papers Fifty thematically unified high interest readings in section I Pref
