Schewe, 2007-02-20 The electrical grid goes everywhere it's the largest and most complex machine ever made Yet the system is built in such a way that the bigger it gets the more inevitable its collapse Named the greatest engineering achievement of the 20th century by the National Academy of Engineering the electrical grid is the largest industrial investment in the history of humankind It reaches into your home snakes its way to your bedroom and climbs right up into the lamp next to your pillow At times it almost seems alive like some enormous circulatory system that pumps life to big cities and the most remote rural areas Constructed of intricately interdependent components the grid operates on a rapidly shrinking margin for error Things can and do go wrong in this system no matter how many preventive steps we take Just look at the colossal 2003 blackout when 50 million Americans lost power due to a simple error at a power plant in Ohio or the one a month later which blacked out 57 million Italians And these two combined don't even compare to the 2001 outage in India which affected 226 million people The Grid is the first history of the electrical grid intended for general readers and it comes at a time when we badly need such a guide As we get more and more dependent on electricity to perform even the most mundane daily tasks the grid's inevitable shortcomings will take a toll on populations around the globe At a moment when energy issues loom large on the nation's agenda and our hunger for electricity grows The Grid is as timely as it is compelling **The Mirror of Literature, Amusement, and Instruction** Thomas Byerley, John Timbs, 1823 Containing original essays historical narratives biographical memoirs sketches of society topographical descriptions novels and tales anecdotes select extracts from new and expensive works the spirit of the public journals discoveries in the arts and sciences useful domestic hints etc etc etc The Sheep Doctor George Armatage, 1895 The Mirror ,1827 *The Literary World* ,1890 *English Mechanic and Mirror of Science* ,1873 **English Mechanic and World of Science** ,1898 **A New English Dictionary on Historical Principles** James Augustus Henry Murray, 1910 *Organic Light-emitting Materials and Devices* ,1999 **National Glass Budget** ,1913 *Southern Cultivator and Dixie Farmer* ,1927 **The Feathered World** ,1894
