**In the Name of the Nation** Sanjib Baruah, 2020-02-04. A study of the history and politics of colonial and post-colonial northeast India. In India, the eight states that border Myanmar, Bangladesh, Bhutan, and the Tibetan areas of China are often referred to as just the Northeast. In the Name of the Nation offers a critical and historical account of the country's troubled relations with this borderland region. Its modern history is shaped by the dynamics of a frontier in its multiple references: migration and settlement, resource extraction, and regional geopolitics. Partly because of this, the political trajectory of the region has been different from the rest of the country. Ethnic militias and armed groups have flourished for decades but they coexist comfortably with functioning electoral institutions. The region has some of India's highest voter turnout rates but special security laws produce significant democracy deficits that are now almost as old as the Republic. That these policies have been enforced to foment national unity while multiple alternative conceptions of the nation animate politics in the region forces us to reflect on the very foundations of the nation form. Sanjib Baruah offers a nuanced account of this impossibly complicated story, asking how democracy can be sustained and deepened in these conditions. Praise for In the Name of the Nation: In this book, Sanjib Baruah provides scholars and students up-to-date facts, new revelations, astute analysis, and basic background for understanding history and politics in northeast India. This is also essential reading for anyone concerned with the quality of sovereignty in India, where national state territorialism is rife with contradictions, ambiguities, militarism, and conflicting allegiances. David Ludden, New York University. This survey of northeastern India is an excellent guide to its diversity and complexity and is characterized by a heartfelt criticism of the actions of the Indian government, guided by Baruah's scholarly authority and personal experiences. Highly recommended. R. D. Long, CHOICE. A powerful overview of the overlapping mechanisms that have made Northeast India an exceptional example of the shortcomings and failures of the territorially circumscribed post-colonial nation-state. Berenice Guyot Rechar, H. Asia.
