Professor Darah turned seventy on Wednesday November 22 2017 and to celebrate his very productive career his colleagues
and many of those he has mentored thought it appropriate to mark his official exit from the university in a dignified way by

commissioning for publication in the now acceptable festschrift tradition the highly compelling and outstanding collection of essays titled *Scholarship and Commitment Essays in Honour of G G Darah* The book is a ground breaking collection of essays some are couched as tributes to the ebullient celebrant there are others on more serious discourses in the areas of literary theories and criticism language and linguistics popular literature and politics the African woman identity and contemporary realities oral literature the news media and cultural studies The essays on their own attest to the vivacity and liveliness as well as the encouraging state of health of publishing in the Nigerian academia which in this collection alone parades forty two essays in different fields or discourses

Religious Convergence in the Ancient Mediterranean Sandra

Blakely, Billie Jean Collins, 2019-12-15 This volume brings together scholars in religion archaeology philology and history to explore case studies and theoretical models of converging religions The twenty four essays offered in this volume which derive from Hittite Cilician Lydian Phoenician Greek and Roman cultural settings focus on encounters at the boundaries of cultures landscapes chronologies social class and status the imaginary and the materially operative Broad patterns ultimately emerge that reach across these boundaries and suggest the state of the question on the study of convergence and the potential fruitfulness for comparative and interdisciplinary studies as models continue to evolve

The Art and Science of Heroism and Heroic Leadership Scott T. Allison, James K. Beggan, Olivia Efthimiou, 2019-06-21

Heroism is a rich elusive phenomenon Any adequate understanding of heroic behavior requires a new type of scholarly imagination one that taps into human artistic sensibilities as much as it does the rigors of scientific inquiry In an important sense we invoke a meta version of the call to heroic imagination by Franco Blau and Zimbardo 2011 who describe such imagination as a mind set and a collection of attitudes p 13 that can steer everyday people toward heroic achievement This eBook also merges our understanding of heroism with heroic leadership demonstrating that heroic leadership applies the principles of heroism in moving groups toward noble collective goals This eBook represents an effort by a distinguished group of authors to unleash their own creative mindsets attitudes and imaginations in their scholarship on heroism and heroic leadership
