oldest preferential trade agreement in the region with a large consumer base can play an important role in filling this gap. Given a slow progress in the multilateral negotiations in the WTO especially when the members have started questioning the utility of the negotiations after 15 years and a lack of consensus on how to move forward the regional trade agreements can play a vital role. Even if they pose a challenge to the multilateralism selected liberalisation of trade and economy in present time can become a building block for future multilateral negotiations. One of the reasons for the surge in these preferential trade agreements is to make binding commitments on WTO plus and WTO beyond issues. While there are many agreements that exist in Asia and the Pacific there is no such attempt to consolidate them in one umbrella framework. Understanding the benefits of the consolidation one such initiative was started by ESCAP a few years back. The RECI initiative for market integration could well be facilitated by APTA however it cannot deliver unless it transforms itself in a new generation agreement. Regional integration and cooperation are also important to meet the 2030 agenda for sustainable development. Instead of wasting resources in discussing a new institutional framework it would be more effective to use the existing framework and for the Asia Pacific economies the APTA provides an existing institutional platform. The cases discussed in this book prepare a ground for the future and it is expected that all the stakeholders member States of ESCAP private sector as well as researchers would benefit from this publication on APTA South South Regional Integration and Sustainable Development. Trade Policy Review - Tonga World Trade Organization, 2014-06. Monitoring the trade policies and practices of members is a fundamentally important activity of the World Trade Organization. All WTO members are reviewed at regular intervals according to their share of world trade. Each Trade Policy Review consists of three parts: a report by the government under review, a report written independently by the WTO Secretariat and the concluding remarks by the chair of the Trade Policy Review Body. A highlights section provides an overview of key trade facts. Fifteen to twenty new review titles are published each year. **Congressional Record** United States. Congress, 2008.
