Such recent new trends as flextime, telecommuting, 360 degree feedback, the flattening of hierarchies and the increased use of temps and contract workers present tough new challenges for supervisors in every field. This timely, completely revised and updated edition of Ferdinand Fournies's classic management coaching bible shows you proven ways to get workers to perform at the highest level while eliminating the self-destructive kinds of behaviors that have become increasingly prevalent in recent years. In this book, you'll be taught specific face-to-face interventions you can use to enhance performance in every kind of workplace situation, from sales to creative brainstorming. There are also interventions uniquely suited to resolving problems ranging from low productivity to absenteeism to conflicts between individuals. You'll learn precisely what to say and do so that each person you supervise will want to give you his or her best work, even when that person was previously thought to be a problem employee.
