

Quick Installation Guide

DIR-503A Mini Wireless Router

Hardware Connection

Make sure this is a standard power outlet, check the rear wireless router status

Plug into the power outlet and check LED indicator

LED Color	Description
Green	AP mode
Red	Router mode
Blue	Power mode

If light is not, connect successfully.
 If light flashes, connect to Internet, you connect again.
 If light is off, you check if connect correctly.
 Please refer to the link to change the mode: Router - AP

4

Application of four modes

1. AP mode

Application Environment: Wired Network, Network cable

In the following picture, power on and connect the LAN port with network cable, when LED indicator shows green, your router will work in AP mode. If all connected signal from cable to wireless signal, then users can access the Internet by wireless signal.

5

2. WDS mode

Application Environment: Wired LAN or ADSL, router or area where status of AP network.
 In the following picture, power on and connect the LAN port with network cable, when LED indicator shows red, your router will work in WDS mode.
 If for only transfer signal from cable to wireless signal, you must set same PPPoE account & password for the Internet with other router.

6

3. Repeater Mode

Application Environment: used to expand wireless signal coverage of AP wireless router in double buildings and a large area

In the following picture, power on and connect the LAN port with network cable, when LED indicator shows blue, your router will work in Repeater mode.

Connect your router with cable to wireless, when router expands wireless signal of upper router, so that, that users get wireless signal of upper router to access the Internet, but users need to use IP address and DNS address as pre-requirement of upper router.

7

4. USB Storage

Application Environment: Any device need to be charged anytime

All the following picture, plug device into power outlet, when light is on, any device can be charged via USB interface.

Remark: This function only for the device with USB connector (power/USB).

8

How to set computer IP address

Please set computer IP address before modify the settings of this router

1. Windows network settings

1. Click Start -> Control Panel/Network and Sharing Center/Change adapter settings/Right-click Network Connection -> Right-click Wireless Network Controller -> Status Properties

2. Download Netcat-Powershell - TCP/IPv4

9

1. Set computer IP address. The IP address is set for 192.168.1.10 (if any already address exists in 192.168.1.0/24, then setting using TCP/IP address in the network, and set TCP/IP same settings)

2. Wireless network controller
 a. After modification (TCP/IP) over the status of the configuration screen of the router, click the link: OK

3. If the power on, when the address selected is correct (192.168.1.10) status

10

D Link Wireless Router Manual

Glen E. Clarke

D Link Wireless Router Manual:

Networking All-in-One For Dummies Doug Lowe,2021-05-04 Your ultimate one stop networking reference Designed to replace that groaning shelf load of dull networking books you'd otherwise have to buy and house Networking All in One For Dummies covers all the basic and not so basic information you need to get a network up and running It also helps you keep it running as it grows more complicated develops bugs and encounters all the fun sorts of trouble you expect from a complex system Ideal both as a starter for newbie administrators and as a handy quick reference for pros this book is built for speed allowing you to get past all the basics like installing and configuring hardware and software planning your network design and managing cloud services so you can get on with what your network is actually intended to do In a friendly jargon free style Doug Lowe an experienced IT Director and prolific tech author covers the essential up to date information for networking in systems such as Linux and Windows 10 and clues you in on best practices for security mobile and more Each of the nine minibooks demystifies the basics of one key area of network management Plan and administrate your network Implement virtualization Get your head around networking in the Cloud Lock down your security protocols The best thing about this book You don't have to read it all at once to get things done once you've solved the specific issue at hand you can put it down again and get on with your life And the next time you need it it'll have you covered

The Basics of Digital Privacy Denny Cherry,2013-11-21 Who's watching you online These days it's hard to be sure But the recent Edward Snowden revelations of NSA data mining and the constant threat of identity theft from criminals mean your privacy is in jeopardy The Basics of Digital Privacy teaches you how to protect the privacy of your data and your identity while surfing searching and interacting with others in a virtual world Author Denny Cherry teaches professionals how to keep huge databases secure and he will introduce you to the basic concepts of protecting your identity your financial data and your personal information from prying eyes while using your computer and smartphone You'll learn how to stay connected and conduct business online while protecting your privacy with every keystroke and click The Basics of Digital Privacy gives you clear non technical explanations of how to safely store personal information online create secure usernames and passwords for websites and participate in social media without compromising your privacy Learn how to find out who's watching you online and what the law has to say about your privacy rights A great resource for anyone who ventures into the online world on a daily basis The most straightforward and up to date guide to privacy for anyone who goes online for work school or personal use Real world examples show you how cyber criminals commit their crimes and what you can do to keep your identity and your data safe Written by author Denny Cherry who teaches top security professionals how to protect huge databases of information Learn the best ways to create secure passwords chat text email and conduct business online without compromising your identity and your personal data
