Sankey,2013-04-17 Incommensurability and Related Matters draws together some of the most distinguished contributors to the critical literature on the problem of the incommensurability of scientific theories It addresses all the various problems raised by the problem of incommensurability such as meaning change reference of theoretical terms scientific realism and anti realism rationality of theory choice cognitive aspects of conceptual change as well as exploring the broader implications of incommensurability for cultural difference While it offers new work and new directions of discussion on the topic of incommensurability the book also recapitulates the history of the discussion of the topic that has taken place within the literature on incommensurability **On the Theory of Content Transformation in Education** Tomáš Janík,Jan Slavík,Petr Najvar,Tereza Češková,2024-03-21 This volume presents a novel theoretical micro analytical model the 3A Methodology for assessing the quality of school education Drawing on philosophers as well as theoretical and pedagogical traditions from European and American contexts the authors construct a model that is relevant to teachers researchers and teacher educators regardless of cultural setting The chapters explain the 3A Methodology as a specific research tool developed to study classroom situations in the form of case studies revealing findings that demonstrate prototypical failures didactic formalism that threaten to compromise the quality of learning as well as prototypical didactic virtues that verifiably support students learning Ultimately building on the distinction of three modes of existence of educational content the intersubjective the subjective and the objective modes the book helps rediscover didactics as a transdisciplinary theory of

content transformation and contributes to the improvement of teaching and learning in the classroom long term This volume will be of interest to scholars researchers and postgraduate students working in school education educational psychology and didactics more broadly Teacher educators and school administrators may also find the book of interest Chapters 1 3 and 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
