 Gatley,2023-03-09 This book presents a case for teaching philosophy in schools It develops two original arguments for
 teaching philosophy to all students at some point over the course of their education Gatley argues that teaching philosophy is
 the best way to help students to think clearly using ordinary or non specialist concepts such as good truth or happiness She
 goes on to argue that teaching philosophy is the best way to help students to make sense of the different conceptual schemes
 used by different school subjects Combining these two arguments Gatley suggests that these two roles for philosophy are
 central to the task of educating people and so philosophy ought to be included on school curricula Building on the work of
 philosophers of education including Richard Stanley Peters Harry Brighouse Matthew Lipman Mary Midgley and Martha
