Mankind is at a crossroads Our social systems are breaking down because we ve lost touch with our ecological position in the  
natural world We ve become utterly distracted by the fast paced demands of daily life to the point where we ve lost track of  
who we are We ve forgotten how to work as a team and nurture the partnerships that helped us be who we are today Our  
neglected partnerships and abusive attitude toward our homeland reflect a mass symptom of ignorance that begs me to  
question the sanity of modern culture Our inability to apply our attention to our intention has placed our species into  
vulnerable territory Nature beckons us to wake up and remember who s in charge The research explored throughout this  
book is based on the personal evolutionary process of creativity our way of relating to the world The reason this exploration  
is so personal is that it deals with the universal qualities of consciousness as experienced uniquely by each individual on a  
subjective level Thus the theme of this project is to identify the objective aspect of evolving human consciousness by means  
of cognitive liberation This quest is meant to address the peculiar problems of the unconscious and subconscious that shape  
ordinary experiences This book considers consciousness as the locus of evolutionary change What does it mean to be free  
from insecurity to not get caught up in the trap of our minds and carried away from what truly matters in life Cognitive  
Liberty offers our bodies and minds a resolution to our being and embrace life as a journey on its own terms It s a friendly  
reminder that we re part of a learning process in constant stages of development and indeterminism The more we re able to  
have fun with the process the greater the freedom we experience in return      Children's Film in the Digital Age Karin  
Beeler,Stan Beeler,2014-12-12 Films of the past 15 years have been released in a number of formats and reflect a

reconceptualization of film genres audiences and the impact of technology on adaptation Focusing on multiple audiences film adaptation nationalism globalism and consumer culture this collection of new essays explores how children s film can be re examined alongside recent developments in their production These analyses consider the effect of multimedia strategies on the child audience the opportunities for viewer participation and the pedagogical implications of films for children The essays also address how childhood is embedded within films and linked to various consumer contexts **The New York Times**
