

### DESIGNING FOR ALL AGES & ABILITIES

Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility design practices are limited to only the oldest people being and exclude many who might otherwise use them.

**IN AN AGE OF GROWING POPULATION** that has become increasingly diverse in age, ability, and ethnicity, it is essential to design transportation systems that are accessible to all. This includes people with disabilities, older adults, and children. Designing for all ages and abilities is not just a moral imperative, it is also a practical one. People of all ages and abilities are essential to the success of our communities.
