Fail Better Hal Foster, 2015-02-25 From the distinguished art critic and historian vital essays on key artists and critics revealing how they redefined art and criticism over the last six decades Serious art anticipates the future as much as it reflects the present Hal Foster remarked in a 2015 interview By the same token serious art history is driven by the present as much as it is informed by the past In *Fail Better* Foster an art critic and historian whose influential work spans disciplines and decades brings this peripatetic perspective to contemporary art art criticism art history and his own work over the past 50 years In these 40 texts Foster reviews artists from Richard Hamilton and Jasper Johns to Gerhard Richter and Ed Ruscha considers contemporaries from Louise Lawler and Cindy Sherman to Jeremy Deller and Adam Pendleton and traces the development of criticism since the early 1960s with essays on such influential figures as Susan Sontag and Rosalind Krauss and institutions like *Artforum* magazine and the Whitney Museum Independent Study Program Taking his title from Beckett try again fail again fail better Foster notes that etymologically an essay is always an attempt more or less failed Critics fail artworks because there can never be a definitive reading art fails its historical moment because it cannot resolve the contradictions that prompt it But in these failures Foster finds historical consciousness and with it the promise of future work future illumination In his reckonings he turns his own long history of criticism to account and succeeds in conveying shifting concepts of art and criticism the work of key artists and critics and the relationships between criticism theory history and politics over the last six decades

The Return of the Real Hal Foster, 1996-09-25 In *The Return of the Real* Hal Foster discusses the development of art and theory since 1960 and reorders the relation between prewar and postwar avant gardes Opposed to the assumption that contemporary art is somehow belated he argues that the avant garde returns to us from the future repositioned by innovative practice in the present And he poses this retroactive model of art and theory against the reactionary undoing of progressive culture that is pervasive today After the models of art as text in the 1970s and art as simulacrum in the 1980s Foster suggests that we are now witness to a return to the real to art and theory grounded in the materiality of actual bodies and social sites If *The Return of the Real* begins with a new narrative of the historical avant garde it concludes with an original reading of this contemporary situation and what it portends for future practices of art and theory culture and politics

Bad New Days Hal Foster, 2015-09-29 One of the world's leading art theorists dissects a quarter century of artistic practice *Bad New Days* examines the evolution of art and criticism in Western Europe and North America over the last twenty five years exploring their dynamic relation to the general condition of emergency instilled by neoliberalism and the war on terror Considering the work of artists such as Thomas Hirschhorn Tacita Dean and Isa Genzken and the writing of thinkers like Jacques Rancière Bruno Latour and Giorgio Agamben Hal Foster shows the ways in which art has anticipated this condition at times resisting the collapse of the social contract or gesturing toward its repair at other times burlesquing it Against the claim that art making has become so heterogeneous as to defy historical analysis Foster

argues that the critic must still articulate a clear account of the contemporary in all its complexity To that end he offers several paradigms for the art of recent years which he terms abject archival mimetic and precarious [Exit Interview](#) Benjamin H. D. Buchloh, Hal Foster, 2024-04-23 Two of the most important voices in art history discuss their intellectual foundations the changing role of criticism and the possibilities for artistic practice today In [Exit Interview](#) the prominent art critics and historians Hal Foster and Benjamin Buchloh discuss their intellectual foundations and the projects they've worked on together from *October* magazine to *Art Since 1900* Through three engaging conversations Foster engages Buchloh on his early influences and aspirations his formative years in Berlin London and Dusseldorf and his career in North America while exploring the impact of other art historians and critics Buchloh candidly addresses his successes critical significance and unexplored avenues in art history providing a unique window into his motivations and experiences With a powerful postface by Buchloh [Exit Interview](#) builds from biography and anecdote to important reflection on one's critical life as a whole

Design and Crime Hal Foster, 2002 In the first half of this book Hal Foster surveys our new political economy of design exploring the marketing of culture and the branding of identity the development of spectacle architecture and the rise of global cities In the second half he examines the historical relations of modern art and the modern museum the conceptual vicissitudes of art history and visual studies the recent travails of art criticism and the double aftermath of modernism and postmodernism Written in a lively style [Design and Crime](#) offers historical sketches and contemporary test cases in an attempt to illuminate the conditions for critical culture in the present [Art Since 1900: 1900-1944](#) Hal Foster, Rosalind E. Kane, 2001 In the first comprehensive biography of Hal Foster author Brian M Kane examines the 70 year career of one of the greatest illustrators of the twentieth century Superman was modeled after Foster's drawings of Tarzan Flash Gordon's Alex Raymond borrowed compositions from Prince Valiant and thousands of artists including the famous contemporary Western painter James Bama count Foster among their greatest influences

What Comes After Farce? Hal Foster, 2024-10-22 Surveying the artistic and cultural scene in the era of Trump In a world where truth is cast in doubt and shame has gone missing what are artists and critics on the left to do How to demystify a political order that laughs away its own contradictions How to mock leaders who thrive on the absurd And why in any event offer more outrage to a media economy that feeds on the same Such questions are grist to the mill of Hal Foster who in [What Comes after Farce](#) delves into recent developments in art criticism and fiction under the current regime of war surveillance extreme inequality and media disruption Concerned first with the cultural politics of emergency since 9/11 including the use and abuse of trauma conspiracy and kitsch he moves on to consider the neoliberal makeover of aesthetic forms and art institutions during the same period A final section surveys signal transformations in art film and writing Among the

phenomena explored are machine vision images produced by machines for other machines without a human interface operational images images that do not represent the world so much as intervene in it and the algorithmic scripting of information that pervades our everyday lives If all this sounds dire it is In many respects we look out on a world that has moved not only politically but also technologically beyond our control Yet Foster also sees possibility in the current debacle the possibility to pressure the cracks in this order to turn emergency into change
