GCE Ordinary Level

**MARK SCHEME for the May/June 2013 series**

<p><b>1123 ENGLISH LANGUAGE</b></p> <p><b>1123/22</b>                      Paper 2 (Reading), maximum raw mark 50</p>
---

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

*Applied Cryptography and Network Security* Mark Manulis, Ahmad-Reza Sadeghi, Steve Schneider, 2016-06-09 This book constitutes the refereed proceedings of the 14th International Conference on Applied Cryptography and Network Security ACNS 2016 held in Guildford UK in June 2016. The 35 revised full papers included in this volume and presented together with 2 invited talks were carefully reviewed and selected from 183 submissions. ACNS is an annual conference focusing on innovative research and current developments that advance the areas of applied cryptography, cyber security, and privacy.

**The Art of the Con** Anthony M. Amore, 2024-05-01 Must reading for any true crime fan. A diverse, colorful crew of art gallery grifters and scammers. Highly recommended. Howie Carr, New York Times bestselling author. Art scams are today so numerous that the specter of a lawsuit arising from a mistaken attribution has scared a number of experts away from the business of authentication and forgery, and with good reason. Art scams are increasingly convincing and involve incredible sums of money. The cons perpetrated by unscrupulous art dealers and their accomplices are proportionately elaborate. Anthony M. Amore's *The Art of the Con* tells the stories of some of history's most notorious yet untold cons. They involve stolen art hidden for decades, elaborate ruses that involve the Nazis and allegedly plundered art, the theft of a conceptual prototype from a well-known artist by his assistant to be used later to create copies, the use of online and television auction sites to scam buyers out of millions, and other confidence scams, incredible not only for their boldness but more so because they actually worked. Using interviews and newly released court documents, *The Art of the Con* will also take the reader into the investigations that led to the capture of the con men, who oftentimes return back to the world of crime. For some, it's an irresistible urge because their innocent dupes all share something in common: they want to believe. An engrossing read about brazen artful scams. Kirkus Reviews: A riveting, fast-moving account of shameless fraudsters who wreak havoc on the art world. A must-read. Brian T. Kelly, former Assistant United States Attorney. [We Are an African People](#) Russell Rickford, 2016-01-14 During the height of the Black Power movement of the late 1960s and 1970s, dozens of Pan African nationalist private schools, from preschools to post-secondary ventures, appeared in urban settings across the United States. The small, independent enterprises were often accused of teaching hate and were routinely harassed by authorities. Yet these institutions served as critical mechanisms for transmitting black consciousness. Founded by activist intellectuals and other radicalized veterans of the civil rights movement, the schools strove not simply to bolster the academic skills and self-esteem of inner-city African American youth but also to decolonize minds and foster a vigorous and regenerative sense of African identity. In *We Are an African People*, historian Russell Rickford traces the intellectual lives of these autonomous black institutions established dedicated to pursuing the self-determination that the integrationist civil rights movement had failed to provide. Influenced by Third World theorists and anticolonial campaigns, organizers of the schools saw formal education as a means of creating a vanguard of young activists devoted to the struggle for black political sovereignty throughout the world. Most of the

institutions were short lived and they offered only modest numbers of children a genuine alternative to substandard inner city public schools Yet their stories reveal much about Pan Africanism as a social and intellectual movement and as a key part of an indigenous black nationalism Rickford uses this largely forgotten movement to explore a particularly fertile period of political cultural and social revitalization that strove to revolutionize African American life and envision an alternate society Reframing the post civil rights era as a period of innovative organizing he depicts the prelude to the modern Afrocentric movement and contributes to the ongoing conversation about urban educational reform race and identity
