## Bilingual Supplemental (164) Practice Questions with Correct Answers

Second language instruction research indicates that second language learners typically absorb \_\_\_\_\_ and then use them in understanding \_\_\_\_\_.

- A) idiomatic expressions; rules of the language
  - B) formulaic expressions; rules of the language
  - C) rules of the language; idiomatic expressions
  - D) rules of grammar; figurative language
- Correct Answer B) formulaic expressions; rules of the language.

- Research indicates that early second-language learners absorb a few formulaic expressions and initially do not perceive them as separate words so much as functional phrases that are memorized as global wholes. Phrases such as "I don't want to go" or "Where is the grocery store" later become templates for discovering the rules of the language. "I don't want to go" becomes the formula for "I don't like my neighbor" or "I don't understand"; with time, the learner understands the subject can change, and that the verb must change in agreement. "I don't want to go" becomes a template for "Paula wants a dog" or "My friend doesn't like shopping."

In 1963, the first two-way immersion (TWI) program in the United States was established. Between then and the early 90s, the growth of TWI programs throughout the country was

  - B) static, with fewer than a dozen documented programs
  - C) exponential, nearly doubling every two to three years
  - D) steady, gaining an average of 10 new programs per year
- Correct Answer B)static

-With fewer than a dozen documented programs. While currently there are 248 programs nationwide, the majority of these were established in the last 20 years. In the two decades following the development of the first TWI program, growth was extremely slow, with fewer than a dozen programs prior to the 1980s.
