

## Biology 103 Laboratory Exercise – Using the Metric System

---

### Objective

This exercise is designed to familiarize students with the metric system through the use of metric units in the measurement of familiar objects.

### Introduction

To make scientific data more easily understood, scientists around the world utilize the same systems of measurement. These common systems of measurement are recognized as the International System of Units (SI). The System encompasses seven basic units of measurement only four of which are of primary interest to biology students. These four units are length, mass, volume, and temperature. These four units of measurement are convenient to use because they are based on the number ten and multiples, thereof.

Refer to the following table of commonly used units for metric conversion in completing the exercise of this exercise.

SI Fundamental Units and Derived Units for this Exercise		
Physical Quantity	Unit name	Symbol
Length	meter	m
