Beyond Woo Woo: The 72-Hour Identity Reset Genrikh Gel, 2025-12-29 This book presents a systemic mechanistic model of manifestation based on the Law of Assumption as described by Neville Goddard and exemplified in a real world case study of rapid financial transformation Using the scientific method we operationalize the phenomenon of manifestation as a closed loop feedback system governed by assumption emotional valence and reaction discipline We apply Operations Management OM theory specifically assembly line processing input output systems and quality control to model the process of reality creation We conclude that manifestation is not random or supernatural but a predictable repeatable process of inner state to outer reality transduction where the human mind functions as a self programming control system 72 Hours is all it takes
