The Constitution

Longevity

- **The Preamble:** defines the objectives of the Constitution
 - To form a more perfect union
 - To establish justice
 - To ensure domestic tranquility
 - To provide for the common defense
 - To promote the general welfare
 - To secure the blessings of liberty
- **The major factors creating longevity of the Constitution**
 - The separation of powers of each branch of government
 - Checks and balances including a recognition that a simple majority vote may not be enough of a check
 - A built in elastic clause as part of Congress's power
 - A reserved power clause giving states power not delegated to the national government
 - Rights guaranteed to the citizens
 - Precedents and traditions creating an unwritten constitution
 - Judicial review growing out of an interpretation of the power of the Supreme Court
 - An amending process, which is flexible enough to allow for change even though it involves more than a majority vote
 - The inherent powers of the president

Branches of Government

- **Article I:** the legislative powers of Congress
 - Bicameral legislature:
 - The House of Representatives: the body most directly responsible to the people
 - Senate: makeup based on equal representation, joins in a partnership with the House in passing laws.
 - Rules of Impeachment
 - Public view of Congress has continued to deteriorate since the 1970s.
 - Oct 2005: 75% of people questioned were critical of Congress
 - A majority of people indicated that they would vote for their incumbent
 - 1995 *Thornton v Arkansas*: state-imposed term limits were unconstitutional, indicating that the only way congressional terms could be altered was through an amendment

Powers of the Chief Executive

- **Article II:** the nature of the chief executive, gives responsibility to a president and vice president.
